(a) "Community college" means a community college established under the community college act of 1966, 1966 PA 331, MCL 389.1 to 389.195, or under part 25 of the revised school code, 1976 PA 451, MCL 380.1601 to 380.1607, or a federal tribally controlled community college located in this state that is recognized under the tribally controlled colleges and universities assistance act of 1978, 25 USC 1801 to 1852, and is determined by the department to meet the requirements for accreditation by a recognized regional accrediting body.

(b) "Department" means the department of education.

(c) "Eligible charges" means tuition and mandatory course fees, material fees, and registration fees required by an eligible institution for enrollment in an eligible course. Eligible charges also include any late fees charged by an eligible postsecondary institution due to the school district's or department of treasury's failure to make a required payment according to the timetable prescribed under this act. Eligible charges do not include transportation or parking costs or activity fees.

(d) "Eligible course" means a course offered by an eligible postsecondary institution that is offered for postsecondary credit; that is not offered by the school district or state approved nonpublic school in which the eligible student is enrolled, or that is offered by the school district or state approved nonpublic school but is determined by its governing board to not be available to the eligible student because of a scheduling conflict beyond the eligible student's control; that is an academic course not ordinarily taken as an activity course; that is a course that the postsecondary institution normally applies toward satisfaction of degree requirements; that is not a hobby craft or recreational course; and that is in a subject area other than physical education, theology, divinity, or religious education. However, for an eligible student who has not achieved a qualifying score in each subject area on a readiness assessment or the Michigan merit examination, as applicable for the student, an eligible course is limited to a course in a subject area for which he or she has achieved a qualifying score, a course in computer science or foreign language not offered by the school district, or a course in fine arts as permitted by the school district. For each individual eligible student, unless there is a written agreement between the eligible student's school district and the eligible postsecondary institution to waive these limits, a course described in this subdivision is not an eligible course if the eligible student's enrollment in, and the payment of eligible charges under this act for, the course would exceed the following limits:

(i) Not more than 10 courses overall. This limit and the limits under subparagraphs (ii) to (iv) do not apply to a course if the eligible student does not receive tuition and fee support under this act for that course.

(ii) If the eligible student first enrolls in a course under this act when the eligible student is in grade 9, not more than 2 courses during each academic year in the eligible student's first, second, or third academic year of enrollment under this act in an eligible postsecondary institution and not more than 4 courses during the academic year in the eligible student's fourth academic year of enrollment under this act in an eligible postsecondary institution.

(iii) If the eligible student first enrolls in a course under this act when the eligible student is in grade 10, not more than 2 courses during the academic year in the eligible student's first academic year of enrollment

under this act in an eligible postsecondary institution, not more than 4 courses during the academic year in the eligible student's second academic year of enrollment under this act in an eligible postsecondary institution, and not more than 4 courses during the academic year in the eligible student's third academic year of enrollment under this act in an eligible postsecondary institution.

(iv) Subject to the overall course limit under subparagraph (i), if the eligible student first enrolls in a course under this act when the eligible student is in grade 11 or 12, not more than 6 courses during either of those academic years of enrollment in an eligible postsecondary institution.

(e) "Eligible postsecondary institution" means a state university, community college, or independent nonprofit degree-granting college or university that is located in this state and that chooses to comply with this act.

However, subject to subsection (2), the student shall not have been enrolled in high school for more than 4 school years including the school year in which the student seeks to enroll in an eligible course under this act. To be an eligible student, a student who has not taken the Michigan merit examination must have achieved a qualifying score in all subject areas on a readiness assessment and a student who has taken the Michigan merit examination must have achieved a qualifying score in all subject areas on the Michigan merit examination, and, subject to subsection (2), the student shall not have been enrolled in high school for more than 4 school years including the school year in which the student seeks to enroll in an eligible course under this act. However, if the student has not achieved a qualifying score in all subject areas on a readiness assessment or the Michigan merit examination, as applicable for the student, the student is an eligible student only for the limited purpose of enrolling in 1 or more eligible courses under this act in a subject area for which he or she has achieved a qualifying score, in computer science or foreign language not offered by the school district, or in fine arts as permitted by the school district. For the purposes of determining the number of years a pupil has been enrolled in high school, a pupil who is enrolled in high school for less than 90 days of a school year due to illness or other circumstances beyond the control of the pupil or the pupil's parent or guardian is not considered to be enrolled in high school for that school year.

(g) "Intermediate school district" means that term as defined in section 4 of the revised school code, 1976 PA 451, MCL 380.4.

(h) "Michigan merit examination" means that examination developed under section 1279g of the revised school code, 1976 PA 451, MCL 380.1279g.

(k) "School district" means that term as defined in section 6 of the revised school code, 1976 PA 451, MCL 380.6, or a public school academy as defined in section 5 of the revised school code, 1976 PA 451, MCL 380.5.

(l) "State approved nonpublic school" means that term as defined in section 6 of the revised school code, 1976 PA 451, MCL 380.6.

(m) "State university" means a state institution of higher education described in section 4, 5, or 6 of article VIII of the state constitution of 1963.

(2) The superintendent of public instruction shall promulgate rules establishing criteria and procedures under which a student who has been enrolled in high school for more than 4 years but not more than 5 years may be considered to be an eligible student. The rules shall address special circumstances under which a student may qualify to be considered an eligible student under this subsection and may limit the number of courses in which a student who qualifies under this subsection may enroll. For the purposes of determining the number of years a pupil has been enrolled in high school, a pupil who is enrolled in high school for less than 90 days of a school year due to illness or other circumstances beyond the control of the pupil or the pupil's parent or guardian is not considered to be enrolled for that school year.

History: 1996, Act 160, Imd. Eff. Apr. 8, 1996;—Am. 1997, Act 178, Imd. Eff. Dec. 30, 1997;—Am. 2004, Act 594, Imd. Eff. Jan.

Sec. 3a. (1) Not later than July 1, 2005, the superintendent of public instruction shall do both of the following:

(a) Approve 1 or more readiness assessments that may be used for the purposes of determining eligible students beginning with participation in the 2006-2007 school year. Readiness assessments shall be aligned with state learning standards and shall provide high school students with an early indication of proficiency in the subject areas of English, mathematics, reading, social studies, and science and contain a comprehensive career planning program.

(b) Determine qualifying scores for each subject area component of a readiness assessment that indicate readiness to enroll in a postsecondary course in that subject area under this act.

(2) Not later than July 1, 2006, the superintendent of public instruction shall determine qualifying scores for each subject area component of the Michigan merit examination that indicate readiness to enroll in a postsecondary course in that subject area under this act.

(3) Unless the school district or state approved nonpublic school in which the student is enrolled elects to pay these costs, a student who takes a readiness assessment for the purposes of this act is responsible for paying all costs for taking and obtaining qualifying scores on a readiness assessment for the purposes of this act. This state is not responsible for any of these costs.

History: Add. 2004, Act 594, Imd. Eff. Jan. 5, 2005;—Am. 2012, Act 134, Eff. July 1, 2012.

388.514 Student eligibility; letter signed by student's principal; application for enrollment; notice to be sent by postsecondary institution; bill detailing eligible charges; payment by school district or department of treasury; late fee; attendance verification; refund; availability of correspondence; books as school property; section inapplicable to certain courses; transportation and parking costs not required.

Sec. 4. (1) The school district or state approved nonpublic school in which an eligible student is enrolled shall provide to the eligible student a letter signed by the student's principal indicating the student's eligibility under this act.

(2) An eligible student may apply to an eligible postsecondary institution to enroll in 1 or more eligible courses offered by that eligible postsecondary institution and, if accepted, may enroll in 1 or more of those courses.

(3) For an eligible student enrolled in a school district, within a reasonable time after registration, the eligible postsecondary institution shall send written notice to the eligible student and his or her school district. For an eligible student enrolled in a state approved nonpublic school, within a reasonable time after registration, the eligible postsecondary institution shall send written notice to the eligible student and his or her state approved nonpublic school and to the department. The notice shall indicate the course or courses and hours of enrollment of that eligible student. The eligible postsecondary institution shall notify the eligible student about tuition, fees, books, materials, and other related charges, as determined by the postsecondary institution, in the customary manner used by the eligible postsecondary institution, and shall notify the eligible student of the estimated amount of the eligible charges that will be billed to the school district or the department, as applicable, under subsection (4).

(4) For an eligible student enrolled in a school district, unless otherwise agreed between the eligible postsecondary institution and the school district, after the expiration of the institution's drop/add period for the course, an eligible postsecondary institution shall send a bill to the eligible student's school district detailing the eligible charges for each eligible course in which the eligible student is enrolled under this act. For an eligible student who is enrolled in a state approved nonpublic school, after the expiration of the eligible postsecondary institution's drop/add period for the course, both of the following apply:

(a) Eligible postsecondary institution shall send a bill to the department detailing the eligible charges for each eligible course in which the eligible student is enrolled under this act.

(b) The department shall determine the amount of the eligible charges to be paid by the department of treasury to the eligible postsecondary institution on behalf of the eligible student under this act and shall deliver this information to the department of treasury by appropriate electronic means.

(5) For an eligible student enrolled in a school district, upon receiving the bill under subsection (4), the school district shall cause to be paid to the eligible postsecondary institution on behalf of the eligible student an amount equal to the lesser of the amount of the eligible charges or the prorated percentage of the statewide pupil-weighted average foundation allowance, as calculated under section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620, for all school districts for the state fiscal year that begins on October 1 of

the academic year of enrollment in the eligible postsecondary institution, with the proration based on the proportion of the school year that the eligible student attends the eligible postsecondary institution. However, in the calculation of the statewide pupil-weighted average foundation allowance for the purposes of this subsection, if a school district's foundation allowance is above the basic foundation allowance under section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620, then the school district's foundation allowance shall be considered to be the basic foundation allowance. Not later than September 1 of each year, the department shall notify the department of treasury of the amount of the statewide pupil-weighted average foundation allowance as calculated for the purposes of this subsection. A school district may pay more money to an eligible postsecondary institution on behalf of an eligible student than is required under this act, and may use local school operating revenue for that purpose. The eligible student is responsible for payment of the remainder of the costs associated with his or her postsecondary enrollment that exceed the amount the school district is required to pay under this act and that are not paid by the school district. As used in this subsection, "local school operating revenue" means that term as defined in section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620.

(6) For an eligible student who is enrolled in a state approved nonpublic school, upon receiving from the department under subsection (4) the amount of the eligible charges to be paid on behalf of the eligible student, the department of treasury shall cause to be paid to the eligible postsecondary institution on behalf of the eligible student an amount equal to the lesser of the amount of the eligible charges or the prorated percentage of the statewide pupil-weighted average foundation allowance, as calculated under section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620, for all school districts for the state fiscal year that begins on October 1 of the academic year of enrollment in the eligible postsecondary institution, with the proration based on the proportion of the school year that the eligible student attends the eligible postsecondary institution. However, in the calculation of the statewide pupil-weighted average foundation allowance for the purposes of this subsection, if a school district's foundation allowance is above the basic foundation allowance under section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620, then the school district's foundation allowance shall be considered to be the basic foundation allowance. Not later than September 1 of each year, the department shall notify the department of treasury of the amount of the statewide pupil-weighted average foundation allowance as calculated for the purposes of this subsection. The eligible student is responsible for payment of the remainder of the costs associated with his or her postsecondary enrollment that exceed the amount the department of treasury is required to pay under this act and that are not paid by the department of treasury.

(7) An eligible postsecondary institution shall not charge a late fee to an eligible student, a school district, the department, or the department of treasury for a payment that is made in compliance with the timetable prescribed under this act even if the payment would otherwise be considered late by the postsecondary institution.

(8) A school district, state approved nonpublic school, or the department may require an eligible student to provide, on a form supplied by the school district, state approved nonpublic school, or the department, reasonable verification that the eligible student is regularly attending a postsecondary course.

(9) For an eligible student who is enrolled in a school district and who enrolls in an eligible course under this act, if the student does not complete the eligible course or, if the student enrolls in an eligible course for postsecondary credit only and the student does not successfully complete the eligible course, as determined by the eligible postsecondary institution, and if the school district has paid money for the course on behalf of the student, all of the following apply:

(a) The eligible postsecondary institution shall forward to the school district any funds that are refundable due to noncompletion of the course. The school district shall then forward to the eligible student any refunded money in excess of the amount paid by the school district for the course on behalf of the eligible student.

(b) The eligible student shall repay to the school district any funds that were expended by the school district for the course that are not refunded to the school district by the eligible postsecondary institution. If the eligible student does not repay this money, the school district may impose sanctions against the eligible student as determined by school district policy. This subdivision does not apply to an eligible student who does not complete the course due to a family or medical emergency, as determined by the eligible postsecondary institution.

(10) For an eligible student who is enrolled in a state approved nonpublic school, and who enrolls in an eligible course under this act, if the eligible student does not complete the eligible course or, if the eligible student enrolls in an eligible course for postsecondary credit only and the eligible student does not successfully complete the eligible course, as determined by the eligible postsecondary institution, and if the department of treasury has paid money for the course on behalf of the eligible student, all of the following apply:

(a) The eligible postsecondary institution shall forward to the department of treasury any funds that are refundable due to noncompletion of the course. If applicable, the eligible postsecondary institution shall then refund to the eligible student any funds that are refundable due to noncompletion of the course and are in excess of the amount paid by the department of treasury for the course on behalf of the eligible student.

(b) The eligible student shall repay to the department of treasury any funds that were expended by the department of treasury for the course that are not refunded to the department of treasury by the eligible postsecondary institution. This subdivision does not apply to an eligible student who does not complete the course due to a family or medical emergency, as determined by the eligible postsecondary institution.

(11) A school district, state approved nonpublic school, the department, or the department of treasury shall make available to an eligible student copies of all correspondence in the possession of the school district, state approved nonpublic school, department, or department of treasury regarding the eligible student's participation in postsecondary enrollment under this act. Correspondence described in this subsection shall be kept by the school district, state approved nonpublic school, department, or department of treasury for at least 1 year.

(12) If a school district pays for books for an eligible student for a postsecondary course under this section, the books are the property of the school district and shall be turned over to the school district after the eligible student completes the course.

(13) This section does not apply to any postsecondary courses in which an eligible student is enrolled in addition to being enrolled full-time in that eligible student's school district or state approved nonpublic school; to a postsecondary course an eligible student is retaking after failing to achieve a satisfactory grade; or to a course contrary to the eligibility provisions of this act. In determining full-time enrollment in a school district under this section or a school district's full-time equated membership under the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1896, for a pupil enrolled in a postsecondary institution under this act, the pupil's enrollment in both the school district and the postsecondary institution shall be counted as enrollment in the school district and a pupil shall not be considered to be enrolled in a school district less than full-time solely because of the effect of the pupil's postsecondary enrollment, including necessary travel time, on the number of class hours provided by the school district to the pupil. In determining full-time enrollment in a state approved nonpublic school under this section for a student enrolled in a postsecondary institution under this act, the student's enrollment in both the state approved nonpublic school and the postsecondary institution shall be counted as enrollment in the state approved nonpublic school and a student shall not be considered to be enrolled in a state approved nonpublic school less than full-time solely because of the effect of the student's postsecondary enrollment under this act, including necessary travel time, on the number of class hours provided by the state approved nonpublic school to the student.

(14) This act does not require a school district or the department of treasury to pay or otherwise provide financial support for transportation or parking costs necessary for an eligible student to participate in postsecondary enrollment under this act. A school district, state approved nonpublic school, or this state is not liable for any injury incurred by an eligible student that is related to transportation necessary for the eligible student to participate in postsecondary enrollment under this act.

(15) The legislature shall appropriate funds to the department of treasury for making payments required to be made by the department of treasury under this act.

Upon the request of an eligible student, his or her high school record and transcript shall also include evidence of successful completion and postsecondary credits granted for a course taken for postsecondary credit under this act. In either case, the eligible student's high school record and transcript shall indicate that the credits were earned at an eligible postsecondary institution and identify the postsecondary institution.

(7) If a student enrolls in an eligible postsecondary institution after leaving high school, the eligible postsecondary institution, in accordance with institutional policy, shall award postsecondary credit for postsecondary courses successfully completed by that student for high school credit under this act at that eligible postsecondary institution. Any time after 3 years following reorganization, the reorganized district, or that district which has succeeded to the largest share of the attached district's state equalized valuation, may assume the obligation of the bonded indebtedness incurred after December 8, 1932, of the original district which has become a part of the reorganization and pay the same from the proceeds of a debt retirement tax levy spread uniformly over the territory of the reorganized or successor district whenever the electors of the reorganized or successor district shall have approved an increase in the limitation on taxes for that purpose and the school tax electors of the district have approved the assumption of such bonded indebtedness. Assumption of the bonded indebtedness of an original school district shall not release the territory of the original district from the final responsibility of paying the obligation or rescind the increase in the limitation on taxes pledged to the bond issue or available to it in the original district, nor be construed as so doing. When the bonded indebtedness of an original district has been so assumed, the board of the reorganized or successor district shall certify and order the levy of taxes for the bonded indebtedness equivalent in terms of money to those required by the terms under which the indebtedness was originally incurred and carry out all provisions of the original bond contract. The election to assume the bonded indebtedness of an attached district may be held at any time after 3 years following the effective date of reorganization when a proposal is placed before the school tax electors to increase the bonded indebtedness of the combined district.

The People of the State of Michigan enact:

388.851 School buildings; construction requirements; rules; "department" defined.

Sec. 1. (1) Except as provided in subsection (2), a school building, public or private, or any additions to a school building, shall not be erected, remodeled, or reconstructed in this state unless all of the following requirements are met:

(a) All plans and specifications for buildings shall be prepared by an architect or professional engineer who is licensed in this state. An architect or professional engineer licensed in this state or another person qualified to supervise construction shall supervise the construction of a school building. For energy conservation improvements and services under section 1274a of the revised school code, 1976 PA 451, MCL 380.1274a, the licensed architect or professional engineer may be directly affiliated with the qualified provider, as defined under that section, that is providing the applicable improvements and services. However, the specifications for the project shall be generic in character and, to the extent possible, shall not include proprietary equipment or technology developed by the qualified provider or in which the qualified provider has an interest.

(b) All walls, floors, partitions, and roofs shall be constructed of fire-resisting materials such as stone, brick, tile, concrete, gypsum, steel, or similar fire-resisting material. All steel members shall be protected by at least 3/4 of an inch of fire-resisting material.

(c) Wood lath or wood furring shall not be used in the construction. This requirement does not prohibit the use of finished wood flooring, wood door and window frames, wood sash, or wood furring and grounds, for the purpose of installing wood trim, panelling, acoustical units, or similar facing materials on masonry walls, structural steel, or concrete ceiling members.

(d) Every room enclosing a heating unit shall be enclosed by walls of fire-resisting materials and shall be equipped with automatically closing fire doors. A heating unit shall not be located directly beneath any portion of a school building or addition that is constructed or reconstructed after January 1, 2003. This requirement does not require the removal of an existing heating plant from beneath an existing building when an addition to the building is constructed unless the department requires that removal in the interests of the public safety. In any school where natural gas or any other kind of gas is used for heating purposes, the gas shall be chemically treated before being used in such a manner as to give a very distinguishable odor if a leak develops in the heating system.

(e) In a gymnasium, fire-proofings may be omitted from the trusses and purlins if they are more than 16 feet off the main floor level.

(f) The architect or engineer shall provide adequate exits from all parts of a school building. In all cases, there shall be at least 2 stairways and the distance from the door of any class or assembly room to a stairway or exit shall not exceed 100 feet.

(g) A requirement in subdivisions (b) to (f) may be waived in writing by the department.

(h) Compliance with section 1b.

(2) The director of the department shall promulgate rules that establish standards and requirements for the relocation and reuse of used modular classrooms. The rules shall require an inspection of a relocated used modular classroom at its original location, at its new location, or at any location where repairs are made to the used modular classroom.

(3) As used in this section, "department" means the department of labor and economic growth.

388.851b School buildings; administration and enforcement of act; inspection; methods; plan reviews; delegation of responsibilities; approval under fire prevention code; scope of act; definitions.

Sec. 1b. (1) Except as otherwise provided in this act, the department is responsible for the administration and enforcement of this act and the Stille-DeRossett-Hale single state construction code act, 1972 PA 230, MCL 125.1501 to 125.1531, in each school building in this state.

(2) Except as provided in subsection (5), a school building covered by bond issues that were approved by the department of treasury after July 1, 2003 shall not be constructed, remodeled, or reconstructed in this state until written approval of the plans and specifications is obtained from the department indicating that the school building will be designed and constructed in conformance with the code. This subsection does not apply to any school building for which construction is covered by bond issues that were approved by the department of treasury before July 1, 2003.

(3) Responsibility for inspections of school buildings shall be determined by 1 of the following methods:

(a) By an independent third party designated in the contract governing the construction, remodeling, or reconstruction of a school building. The independent third party shall be responsible for all inspections required to insure compliance with the code. The school authority shall verify that the independent third party named is knowledgeable about construction practices and codes and is otherwise qualified to conduct the inspections. The name of the independent third party to be responsible for conducting inspections shall be submitted to the department with the plans and specifications required by subsection (2). If the department determines that the independent third party is not qualified to conduct the inspections or is not an independent third party, it shall disapprove of the designation and notify the school authority. All inspection reports prepared by the person designated by the school authority under this subdivision shall be sent to the department upon completion of the inspection. The department may return the report for further work if there are questions relating to the scope of the inspection or whether the construction, remodeling, or reconstruction meets the requirements of the code.

(b) If a designation of an independent third party is not made as required under subdivision (a), the inspections required to insure compliance with the code will be performed by the department or as provided under subsection (5).

(4) Except as provided in subsection (5), the department shall perform for school buildings all plan reviews within 60 days from the date the plans are filed or considered approved and inspections within 5 business days as required by the code and shall be the enforcing agency for this act.

(5) The department shall delegate the responsibility for the administration and enforcement of this act to the applicable agency if both the school board and the governing body of the governmental subdivision have annually certified to the department, in a manner prescribed by the department, that full-time code officials, inspectors, and plan reviewers registered under the building officials and inspectors registration act, 1986 PA 54, MCL 338.2301 to 338.2313, will conduct plan reviews and inspections of school buildings.

(6) This section does not affect the responsibilities of the bureau of fire services under the fire prevention code, 1941 PA 207, MCL 29.1 to 29.34. The bureau of construction codes and safety and the bureau of fire services in the department shall jointly develop procedures to use the plans and specifications submitted in carrying out the requirements of this act and the fire prevention code, 1941 PA 207, MCL 29.1 to 29.34. A

certificate of occupancy shall not be issued by the appropriate code enforcement agency until a certificate of approval has been issued under the fire prevention code, 1941 PA 207, MCL 29.1 to 29.34.

(7) This section applies to construction, remodeling, or reconstruction of school buildings that are covered by bond issues that were approved by the department of treasury after July 1, 2003. Construction, remodeling, or reconstruction of school buildings that are covered by bond issues approved before July 1, 2003 shall submit the plans and specifications to the department for approval under section 1. The department shall not grant approval until it has received the certification described in section 3 relative to fire safety and from the appropriate health department relative to water supply, sanitation, and food handling.

(8) As used in this section:

(a) "Code" means the state construction code provided for in the Stille-DeRossett-Hale single state construction code act, 1972 PA 230, MCL 125.1501 to 125.1531.

(b) "Construction" means that term as defined in section 2a of the Stille-DeRossett-Hale single state construction code act, 1972 PA 230, MCL 125.1502a.

(c) "Department" means the department of labor and economic growth.

388.852 School building; architect or engineer; responsibilities; violation; penalty.

Sec. 2. (1) The licensed architect or engineer preparing the plans and specifications of a school building is responsible for assuring that the design documents provide for a structure with sufficient structural strength and fire resistance and that the building will meet all applicable codes, standards, and regulations.

(2) The person supervising the construction of a school building is responsible for the construction of the school building in conformance with the approved plans and specifications prepared by the licensed architect or engineer.

(3) A person that violates this section is subject to all of the following:

(a) A state civil infraction punishable by a civil fine of not more than \$10,000.00.

388.853 Inspection by bureau of fire services; notice; exception.

Sec. 3. (1) Except as provided in subsection (2), the bureau of fire services created in section 1b of the fire prevention code, 1941 PA 207, MCL 29.1b, shall inspect a school building to determine whether its construction complies with this act. The bureau of fire services shall inspect each building at least twice during construction, once to inspect the framework of the building before plastering and once on the completion of the building. The person supervising construction of the school building shall notify the bureau of fire services when the building is ready for inspection. In making an inspection under this subsection, the bureau of fire services has the powers set forth in the fire prevention code, 1941 PA 207, MCL 29.1 to 29.34.

(2) The bureau of fire services is not required to inspect or make a determination of fire safety in an existing school building in relation to operation, maintenance, remodeling, or repairs, or to inspect a school building to determine whether its construction complies with this act, if the school building is located in a municipality where both the school board and the governing body of the municipality have certified to the superintendent of public instruction, in a manner prescribed by the superintendent, that the fire safety inspections and fire safety measures for the schools located in the municipality are provided for by a municipal code or ordinance administered and enforced by a full-time fire prevention and safety department, division, or bureau maintained by the municipality and are satisfactory to both the school board and the governing body. Either the school board or the governing body may rescind the certification. A certification under this subsection shall not be submitted to or accepted by the superintendent of public instruction unless the municipality has received from the bureau of fire services written attestation that the municipality has an ordinance or code for fire protection in schools equal to the minimum state requirements and has a full-time fire prevention inspection service with a qualified program of school plan review and inspection. The state fire safety board shall hear and decide an appeal from a decision made under this section as a contested case under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. After a hearing, the board, acting in accordance with its statutory authority and provisions, may vary the application of any school

fire safety rule or may modify the ruling or interpretation of the municipal enforcing authority if the board decides that the enforcement would do manifest injustice and would be contrary to the public interest. A decision of the board to vary the application of any fire safety rule, or to modify or change a ruling of the municipal enforcing authority, shall specify in what manner the variation, modification, or change is made, the conditions upon which it is made, and the reasons for the variation, modification, or change.

Sec. 4. The license or registration of an architect or engineer convicted of violating this act shall be revoked. A school officer, member of a school board, or other person who neglects or refuses to do or perform any act required by this act, or who violates or knowingly permits or consents to any violation of this act, is guilty of a misdemeanor punishable by a fine of not more than \$500.00 or imprisonment for not more than 3 months, or both. Any violation of this act may be enjoined in an action brought by the bureau of fire services created in section 1b of the fire prevention code, 1941 PA 207, MCL 29.1b, in the circuit court for the county in which the school buildings are or will be situated.

(4) This act applies to the reconstruction of a school building destroyed or partially destroyed by fire, windstorm, or other catastrophe if more than 50% of the entire building is destroyed. The bureau of fire services created in section 1b of the fire prevention code, 1941 PA 207, MCL 29.1b, acting jointly with the superintendent of public instruction, may require that the damaged portion or the remaining portion of the building, or both, be remodeled or reconstructed in accordance with this act.

(3) If both methods are used and a question arises as to the presence of fibers that may not be asbestos, a measurement made by transmission electron microscopy controls.

Sec. 1. This act is for the purpose of implementing section 27 of article 10 of the Michigan constitution, adopted by the electors of the state at the election held on the fourth day of April, 1955, hereinafter referred to as section 27.

History: 1955, Act 151, Imd. Eff. June 7, 1955.

For transfer of authority, powers, duties, functions, and responsibilities of the Department of Education under Act No. 108 of Public Acts of 1961, as amended, being Section 388.951 et seq. of the Michigan Compiled Laws, Act No. 74 of the Public Acts of 1955, as amended, being Section 388.921 et seq. of the Michigan Compiled Laws, Act No. 112 of the Public Acts of 1961, as amended, being Section 388.981 et seq. of the Michigan Compiled Laws, and Act No. 151 of the Public Acts of 1955, as amended, being Section 388.931 et seq. of the Michigan Compiled Laws, to the Department of Treasury, see E.R.O. 388.932 State loans to school districts; basis; limitations.

Sec. 2. If the minimum amount necessary to be levied in any calendar year for the payment of principal and interest on the bonds of a school district issued prior to July 1, 1962, after deducting any funds pledged to and available for the payment thereof, shall exceed 13 mills on each dollar of its assessed valuation as last equalized by the state, then the state of Michigan shall loan such school district the amount of such excess, but all loans so made shall not exceed in the aggregate the sum of \$100,000,000.00 and shall be subject to the terms and conditions prescribed in this act.

History: 1955, Act 151, Imd. Eff. June 7, 1955.

388.933 State loans to school districts; qualification of bonds by superintendent of public instruction.

Sec. 3. The principal and interest on any issue of school district bonds issued prior to May 4, 1955, shall be automatically included in computing the amount to be loaned by the state under said section 27 and this act, but the principal and interest on any issue of school district bonds issued on or after May 4, 1955, shall not be included in making such computation, unless the said bonds have been qualified therefor by the superintendent of public instruction, which bonds, including both those automatically qualified and those qualified by the superintendent of public instruction, are sometimes hereinafter referred to as "qualified bonds". No issue of bonds shall be qualified by the superintendent of public instruction unless he shall find as follows, to-wit:

1. That the last maturity date on such issue of bonds is not less than 25 years from the issuance date appearing thereon and that the yearly principal maturity date is not less than 6 months after the major part of the taxes therefor become by law a lien upon the property assessed.

2. That the amount of principal maturing in any calendar year is not less than two-thirds of the amount of principal maturing in any prior calendar year.

3. That the cost of the project for which the bonds are to be issued is within such reasonable standards of costs as shall have been established by the state board of education, which standards may vary as to different localities in accordance with any variance in construction costs as between such localities.

4. That the project is designed to provide classrooms and furnishings, with the facilities necessarily connected therewith, including site, and is adequate for that purpose. A classroom is a room primarily used for teaching courses of study. Without limiting the foregoing, swimming pools, athletic fields and athletic stadiums shall not be deemed to be classrooms or primarily used for teaching courses of study. In addition, gymnasiums and auditoriums shall not be deemed to be classrooms except in those cases in which the school district provides adequate proof that the gymnasium and/or auditorium is necessary and will be used primarily

for regularly scheduled instructional purposes.

5. That there exists a need for the project based upon current and probable future enrollment.

6. That there is reasonable evidence that the project will not hinder school district reorganization in the area in the foreseeable future.

7. That the project shall be for the purpose of construction of 6 or more classrooms, unless the superintendent of public instruction shall determine and certify that circumstances of location, or topography, or transportation, or population density are clearly such as to warrant construction of a school building or addition of a lesser number of classrooms.

Provided, That if any project shall exceed the above limitations as to cost and/or purpose, the bonds therefor may be qualified by the superintendent of public instruction to the extent of that percentage which represents the percentage of the project cost which is within such limitations. If the superintendent of public instruction shall find as aforesaid, then he shall issue his certificate setting forth such findings and certifying that the bonds, or such percentage thereof, are qualified under the terms of said section 27 and this act, and that the minimum amount necessary to be levied in any calendar year for principal and interest on the bonds or such portion as may be qualified after deducting any funds pledged to and available for the payment thereof, shall be included in computing the amount, if any, to be loaned by the state under said section 27 and this act. In the case of refunding bonds issued on or after May 4, 1955, to refund bonds issued prior to May 4, 1955, the superintendent of public instruction shall issue his certificate of qualification if he finds that such refunding bonds comply with the qualifications set forth in paragraphs numbered 1 and 2 of this section.

In the case of refunding bonds to refund obligations originally incurred on or after May 4, 1955, the superintendent of public instruction shall not issue his certificate of qualification therefor unless the bonds representing the original indebtedness had been qualified by him. All such certificates shall be kept in a permanent file in the office of the superintendent of public instruction, and copies thereof shall be delivered to the school district and to the office of the municipal finance commission. Application for such a certificate of qualification shall be made on forms prepared and supplied by the superintendent of public instruction. He shall prescribe reasonable rules and regulations in respect thereto. If prior to the issuance of bonds, the school district does not secure such certificate of qualification from the superintendent of public instruction, it shall be deemed to have waived the right to have such bonds so qualified.

388.934 State loans to school districts; procedure; receipts.

Sec. 4. In any school district where the amount necessary to be levied in any calendar year for principal and interest on qualified bonds, shall exceed 13 mills on each dollar of its assessed valuation as last equalized by the state, such school district on or before 60 days prior to the time of the certification of its tax levy to the assessing officer, may file with the superintendent of public instruction a preliminary application for a loan from the state: Provided, That if the excess over 13 mills is reached or increased by reason of bonds voted within said 60 day period, an original or amended application shall be filed within said period. Such application shall set forth the amount of the last state equalized valuation of the school district, the amount of principal and interest on qualified bonds necessary to be levied upon the tax roll of such year, the amount of any moneys on hand pledged to and available for the payment of such principal and interest, the probable delinquency in tax collections at the times such principal and interest will become due, the estimated amount of the loan which will be required from the state and any other pertinent facts which may be required to be included therein by the superintendent of public instruction. The superintendent of public instruction shall examine said application as soon as possible and notify the school district of any erroneous statements or assumptions therein. If a loan from the state shall become necessary for the payment of such principal and interest, then the school district shall file a supplemental application with the superintendent of public instruction setting forth the amount of the tax collections to the date of said application, an estimate of probable collections prior to the time when such principal and interest will become due and the amount of the loan necessary from the state. Such supplemental application shall be made not less than 30 days prior to the time when the proceeds of the loan will be necessary in order to pay maturing principal and/or interest. Upon receipt of such supplemental application it shall be the duty of the superintendent of public instruction after auditing the same, to forward to the state treasurer a statement setting forth the amount to be loaned to the school district for the payment of principal and interest and the date on or before which such loan shall be made. He shall also prepare the proper voucher as a basis for the issuance of the necessary warrant in accordance with state accounting practices. Upon receipt of such statement and warrant, it shall be the duty of the state treasurer to loan to the school district from "the school bond loan fund" the amount set forth in the statement of the superintendent of public instruction on or before the date specified therein. The state treasurer

upon the making of said loan shall obtain from the school district a receipt for the amount so loaned, which receipt shall specify the terms of repayment in accordance with the provisions of said section 27 and this act. Upon receipt by any school district of such a loan it shall be the duty of the treasurer thereof to cause the same to be deposited in the debt retirement fund and used solely for the payment of principal and interest on qualified bonds.

388.935 State loans to school districts; repayment to state; interest.

Sec. 5. Any school district having received a loan from "the school bond loan fund" under the provisions of this act, shall continue thereafter to levy on its tax rolls not less than 13 mills on each dollar of its assessed valuation as last equalized by the state, exclusive of any levy for unqualified bonds, until all loans made to the school district by the state are repaid with interest rates to be annually adjusted by the state administrative board which shall represent the average interest cost to the state on the outstanding bonds issued under said section 27 and any implementing act, computed to the nearest 1/8 of 1%. The superintendent of public instruction shall annually certify to the several borrowing districts the rate of interest to be currently collected. The proceeds of each such levy shall be used first, for the payment of the minimum principal and interest requirements on the qualified bonds which shall become due prior to the time of the next tax collection, and any balance shall be paid to the state until the principal and interest due the state shall have been paid.

Sec. 6. Any person who shall knowingly make any false statement or conceal any material information for the purpose of obtaining a loan under the provisions of this act, or use the proceeds of a loan or any portion thereof for any purpose not authorized by this act shall be guilty of a felony.

Sec. 7. In case any school district obtaining a loan pursuant to this act shall fail to levy at least 13 mills upon its state equalized valuation for debt retirement purposes while any part of such loan is unpaid, or shall default in its agreement to repay the loan or any installment thereof, no money shall be distributed to such school district out of the primary school interest fund or out of the state school aid fund until satisfactory arrangements have been made with the superintendent of public instruction for the payment of the amount in default.

388.938 State loans to school districts; qualification fee; rules and regulations.

Sec. 8. Any school district applying for qualification of bonds, such bonds having been issued on or after May 4, 1955, shall pay a fee for such qualification, which fee shall be used toward defraying the administrative expenses in connection with this act. The fee shall be paid to the superintendent of public instruction within 30 days after the moneys obtained through the sale of bonds so qualified have been received by the treasurer of the board of education of the school district. The amount of the fee to be paid by the school district shall be based upon the total amount of the bond issue included in the application for qualification, and shall be determined by the superintendent of public instruction. The superintendent of public instruction shall prescribe necessary rules and regulations, in accordance with Act No. 88 of the Public Acts of 1943, as amended, being sections 24.71 to 24.82, inclusive, of the Compiled Laws of 1948, and subject to Act No. 197 of the Public Acts of 1952, as amended, being sections 24.101 to 24.110, inclusive, of the Compiled Laws of 1948. The amount of the fee to be charged to the school district may vary according to the amount of the bond issue, except that in no case shall this amount be less than \$100.00, and the total amount to be charged to all school districts in any one fiscal year shall be approximately equal to the estimated administrative expenses in connection with this act for the same fiscal year. Upon failure of any school district to pay such qualification fee within the time specified, the superintendent of public instruction is hereby authorized to withhold the amount of such fee from the payment of state school aid money next due the district: Provided, That the provisions of this section shall not apply to any issue of school district bonds qualified by the superintendent of public instruction prior to July 1, 1956.

Sec. 3. (1) For the prompt payment of the principal and interest upon each bond or note issued under this act, the full faith and credit of the state are pledged, and there is appropriated each year during the life of these bonds or notes from the general fund a sufficient amount to pay the principal and interest on the bonds or notes maturing each year.

This appropriation shall be used to make state school aid payments to school districts within 90 days after the settlement date.

WHEREAS, Article 5, Section 2 of the Constitution of the State of Michigan of 1963 empowers the Governor to make changes in the organization of the executive branch or in the assignment of functions among its units which he considers necessary for efficient administration; and

WHEREAS, pursuant to Article 8, Section 3 of the Michigan Constitution of 1963 the State Board of Education provides leadership and general supervision over public education, including adult education and instructional programs in state institutions, serves as the general planning and coordinating body for all public education, including higher education, and advises the legislature as to financial requests in connection therewith; and

WHEREAS, as explained in the Address to the People accompanying Article 8, Section 3, the State Board of Education was to provide its constitutional leadership by being a state level policy-making body which was to emphasize two fundamental principles: (1) the concern of all people in the educational processes as a safeguard for democracy, and (2) greater public participation in the operation of educational institutions; and

WHEREAS, the State Board of Education provides its constitutional general supervision by developing and creating general guidelines and standards by which public education is provided; and

WHEREAS, as reflected in the Address to the People accompanying Article 8, Section 3, the State Board of Education exercises its constitutional general planning and coordinating authority by being the unifying and coordinating force for education within the state, by receiving and considering information from all levels of public education, and by advising local school boards, governing boards of colleges and universities and the legislature as to the total needs of education in this state; and

WHEREAS, Section 3 of Article VIII of the Michigan Constitution of 1963 vests leadership and general supervision over all public education, including adult education and instructional programs in state institutions, except as to institutions of higher education granting baccalaureate degrees, in an elected State Board of Education;

WHEREAS, 1999 PA 10 removed the elected school board for the Detroit Public School District and replaced the board with an appointed board consisting of six appointees and the State Superintendent of Public Instruction;

WHEREAS, 1999 PA 10 also created within the Department of Education a School District Accountability Board consisting of the State Superintendent of Public Instruction, the State Treasurer, the State Budget Director, and two persons appointed by Governor John M. Engler to review district improvement plans submitted by the appointed school board and monitor any progress being made in achieving goals and benchmarks under the plan;

WHEREAS, under 1999 PA 10, the powers of the School District Accountability Board were limited to a qualifying school district in which an appointed school reform board is in place, such as the board appointed for the Detroit Public School District in 1999;

WHEREAS, the takeover of the Detroit Public School District by an appointed board mandated under 1999 PA 10 was a failure, resulting in a \$198 million deficit during Fiscal Year 2005;

WHEREAS, 2003 PA 303 amended 1990 PA 10 to end the state takeover of the Detroit Public School District, allowing Detroit voters, rather than Lansing lawmakers, to determine the powers of the Detroit School Board and what is best for their schools and their children;

WHEREAS, when given a choice, Detroit voters chose to govern their school district by an elected board in the same manner as other districts throughout this state, and the elected board they selected is now in place;

WHEREAS, return to an elected school board for Detroit Public Schools eliminates the need for a special School District Accountability Board to provide state oversight of an appointed board for the Detroit Public School District;

WHEREAS, the functions of the School District Accountability Board are best vested in elected officials directly accountable to the public;

WHEREAS, it is necessary in the interests of efficient administration and effectiveness of government to change the organization of the executive branch of state government;

AN ACT to enact the compact for education; and to provide the terms of the compact.

History: 1972, Act 359, Eff. Mar. 30, 1973.

The People of the State of Michigan enact:

388.1301 Compact for education.

Sec. 1. The compact for education is entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

COMPACT FOR EDUCATION Article I. Purpose and Policy.

(a) It is the purpose of this compact to:

(1) Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.

(2) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

(3) Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

(4) Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

(b) It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

(c) The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

Article II. State Defined.

As used in this compact, "state" means a state, territory or possession of the United States, the District of Columbia or the Commonwealth of Puerto Rico.

Article III. The Commission.

(a) The education commission of the states, hereinafter called "the commission", is established. The commission shall consist of seven members representing each party state. One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(b) The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority

of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(j).

(c) The commission shall have a seal.

(d) The commission shall elect annually, from among its members, a chairman, who shall be a governor, a vice chairman and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

(e) Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

(f) The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

(g) The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this article shall be reported in the annual report of the commission. (3) Develop proposals for adequate financing of education as a whole and at each of its many levels.

(4) Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

(5) Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

(6) Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

Article V. Cooperation With Federal Government.

(a) If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve

in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

(b) The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

Article VI. Committees.

(a) To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of 32 members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, 1/4 shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of 2 years, except that members elected to the first steering committee of the commission shall be elected as follows: 16 for 1 year and 16 for 2 years. The chairman, vice chairman and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than 2 terms as a member of the steering committee; provided that service for a partial term of 1 year or less shall not be counted toward the 2 term limitation.

(b) The commission may establish advisory and technical committees composed of state, local and federal officials, and private persons to advise it with respect to any one or more of its functions. (c) The commission may establish such additional committees as its bylaws may provide.

Article VII. Finance.

(a) The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

(b) The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

(c) The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to Article III(g) thereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VIII. Eligible Parties; Entry Into and Withdrawal.

(a) This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term "governor", as used in this compact, shall mean the closest equivalent official of such jurisdiction.

(c) Adoption of the compact may be either by enactment thereof or by adherence thereto by the governor:

Provided that in the absence of enactment, adherence by the governor shall be sufficient to make his state a party only until December 31, 1967. During any period when a state is participating in this compact through gubernatorial action, the governor shall appoint those persons who, in addition to himself, shall serve as the members of the commission from his state, and shall provide to the commission an equitable share of the financial support of the commission from any source available to him.

(d) Except for a withdrawal effective on December 31, 1967 in accordance with paragraph (c) of this article, any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article IX. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL Act 68 of 1976

AN ACT entering into the interstate agreement on qualification of educational personnel; and for related purposes.

History: 1976, Act 68, Imd. Eff. Apr. 5, 1976.

The People of the State of Michigan enact:

388.1371 Interstate agreement on qualification of educational personnel; form.

Sec. 1. The interstate agreement on qualification of educational personnel is enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

Article 1

Purpose, Findings and Policy

1. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their state of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article 2

Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this agreement.

3. "Accept", or any variant thereof, means to recognize and give effect to 1 or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. "State" means a state, territory or possession of the United States; the district of columbia; or the commonwealth of Puerto Rico.

5. "Originating state" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article 3.

6. "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to article 3.

Article 3

Interstate Educational Personnel Contracts

1. The designated state official of a party state may make 1 or more contracts on behalf of his state with 1 or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which he finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in his own state.

2. Any such contract shall provide for:

- (a) Its duration.
 - (b) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.
 - (c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.
 - (d) Any other necessary matters.
3. No contract made pursuant to this agreement shall be for a term longer than 5 years but any such contract may be renewed for like or lesser periods.
4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.
5. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.
6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

Article 4

Approved and Accepted Programs

1. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.
2. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article 5

Interstate Cooperation

The party states agree that:

1. They will, so far as practicable, prefer the making of multi-lateral contracts pursuant to article 3 of this agreement.
2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article 6

Agreement Evaluation

The designated state officials of any party state may meet from time to time as a group to evaluate progress under the agreement, and to formulate recommendations for changes.

Article 7

Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article 8

Effect and Withdrawal

1. This agreement shall become effective when enacted into law by 2 states. Thereafter it shall become effective as to any state upon its enactment of this agreement.
2. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.
3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article 9

Construction and Severability

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

A district's, public school academy's, or intermediate district's membership shall be adjusted as provided under section 25 for pupils who enroll in the district, public school academy, or intermediate district after the pupil membership count day. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL

380.553a, or for the education achievement system, a pupil's participation in the cyber school's educational program or in an online educational program of the education achievement system or of an achievement school is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, the education achievement system, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil's educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.

(g) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(h) A pupil enrolled in an achievement school shall be counted in membership in the education achievement system.

(i) For a new district or public school academy beginning its operation after December 31, 1994, or for the education achievement system or an achievement school, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, a public school academy, the education achievement system, or an intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(l) Pupils to be counted in membership shall be not less than 5 years of age on December 1 and less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years

of age as of September 1 of the current school year shall be counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils and that is located in a city with a population of more than 500,000.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership unless the individual is a pupil with a disability as defined in R 340.1702 of the Michigan administrative code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy or the education achievement system is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy or the education achievement system unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy or the education achievement system and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy or the education achievement system provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy or the education achievement system shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy or the education achievement system provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy or the education achievement system provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy or the education achievement system.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Beginning in 2012-2013, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. Not later than December 1, 2012, the department shall seek a clarification from the federal department of education as to whether this is an allowable use of federal title I money. The change in the counting of full-time equated memberships for pupils in kindergarten that takes effect in 2012-2013 is not a mandate. Not later than the fifth Wednesday after the pupil membership count day, each district or public school academy and the education achievement system shall report to the department and the center the number of

instructional hours scheduled per kindergarten pupil for 2012-2013. If the number of instructional hours scheduled per kindergarten pupil is not equal for all kindergarten pupils in the district, the district or public school academy and the education achievement system shall report the number of kindergarten pupils who were scheduled to receive each of the different numbers of instructional hours scheduled.

(s) For a district, a public school academy, or the education achievement system that has pupils enrolled in a grade level that was not offered by the district, the public school academy, or the education achievement system in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district, the public school academy, or the education achievement system that is educating the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district or the education achievement system within 45 days after the pupil membership count day, the department shall adjust the district's or the education achievement system's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and, beginning in 2007-2008, if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or the education achievement system in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or the education achievement system receives the same amount of membership aid for the pupil as if the pupil were counted in the district or the education achievement system on the supplemental count day of the preceding school year.

(aa) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

Sec. 11f. (1) From the appropriations under section 11, there is allocated for the purposes of this section an amount not to exceed \$32,000,000.00 for the fiscal year ending September 30, 2008. Payments under this section will cease after September 30, 2008. These allocations are for paying the amounts described in subsection (4) to districts and intermediate districts, other than those receiving a lump sum payment under subsection (2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district has or may have in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. The waiver resolution shall be in form and substance as required under subsection (7). The state treasurer is authorized to accept such a waiver resolution on behalf of this state. The amounts described in this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(2) In addition to any other money appropriated under this act, there was appropriated from the state school aid fund an amount not to exceed \$1,700,000.00 for the fiscal year ending September 30, 1999. This appropriation was for paying the amounts described in this subsection to districts and intermediate districts that were not plaintiffs in the consolidated cases known as Durant v State of Michigan; that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district had or may have had in any claim or litigation based on or arising out of any claim or

potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan; and for which the total amount listed in section 11h and paid under this section was less than \$75,000.00. For a district or intermediate district qualifying for a payment under this subsection, the entire amount listed for the district or intermediate district in section 11h was paid in a lump sum on November 15, 1998 or on the next business day following that date. The amounts paid under this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(3) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in this section. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(4) The amount paid each fiscal year to each district or intermediate district under subsection (1) shall be 1/20 of the total amount listed in section 11h for each listed district or intermediate district that qualifies for a payment under subsection (1). The amounts listed in section 11h and paid in part under this subsection and in a lump sum under subsection (2) are offers of settlement and compromise to each of these districts or intermediate districts to resolve, in their entirety, any claim or claims that these districts or intermediate districts may have asserted for violations of section 29 of article IX of the state constitution of 1963 through September 30, 1997, which claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, shall not be construed to constitute an admission of liability to the districts or intermediate districts listed in section 11h or a waiver of any defense that is or would have been available to the state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(5) The entire amount of each payment under subsection (1) each fiscal year shall be paid on November 15 of the applicable fiscal year or on the next business day following that date.

(6) Funds paid to a district or intermediate district under this section shall be used only for textbooks, electronic instructional material, software, technology, infrastructure or infrastructure improvements, school buses, school security, training for technology, an early intervening program described in subsection (8), or to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section. For intermediate districts only, funds paid under this section may also be used for other nonrecurring instructional expenditures including, but not limited to, nonrecurring instructional expenditures for vocational education, or for debt service for acquisition of technology for academic support services. Funds received by an intermediate district under this section may be used for projects conducted for the benefit of its constituent districts at the discretion of the intermediate board. To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for that debt service.

(7) The resolution to be adopted and submitted by a district or intermediate district under this section and section 11g shall read as follows:

"Whereas, the board of _____ (name of district or intermediate district) desires to settle and compromise, in their entirety, any claim or claims that the district (or intermediate district) has or had for violations of section 29 of article IX of the state constitution of 1963, which claim or claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

Whereas, the district (or intermediate district) agrees to settle and compromise these claims for the consideration described in sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g, and in the amount specified for the district (or intermediate district) in section 11h of the state school aid act of 1979, 1979 PA 94, MCL 388.1611h.

Whereas, the board of _____ (name of district or intermediate district) is authorized to adopt this resolution.

Now, therefore, be it resolved as follows:

1. The board of _____ (name of district or intermediate district) waives any right or interest it may have in any claim or potential claim through September 30, 1997 relating to the amount of funding the district or intermediate district is, or may have been, entitled to receive under the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1772, or any other source of state funding, by reason of the application of section 29 of article IX of the state constitution of 1963, which claims or potential claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of

Michigan, Michigan supreme court docket no. 104458-104492.

2. The board of _____ (name of district or intermediate district) directs its secretary to submit a certified copy of this resolution to the state treasurer no later than 5 p.m. eastern standard time on March 2, 1998, and agrees that it will not take any action to amend or rescind this resolution.

3. The board of _____ (name of district or intermediate district) expressly agrees and understands that, if it takes any action to amend or rescind this resolution, the state, its agencies, employees, and agents shall have available to them any privilege, immunity, and/or defense that would otherwise have been available had the claims or potential claims been actually litigated in any forum.

4. This resolution is contingent on continued payments by the state each fiscal year as determined under sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g. However, this resolution shall be an irrevocable waiver of any claim to amounts actually received by the school district or intermediate school district under sections 11f and 11g of the state school aid act of 1979."

(8) An early intervening program that uses funds received under this section shall meet either or both of the following:

(a) Shall monitor individual pupil learning for pupils in grades K to 3 and provide specific support or learning strategies to pupils in grades K to 3 as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Shall provide early intervening strategies for pupils in grades K to 3 using school-wide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

The resolution or any other instrument by which a pledge is created is not required to be filed or recorded in order to establish and perfect a lien or security interest in the property pledged.

388.1617a Withholding payment district or intermediate district entitled to receive under act; extent; plan for financing outstanding obligation defaulted upon by district or intermediate district; use of amounts withheld; agreement assigning or pledging payment; effect of appointment of emergency manager; indebtedness of state not created; "trustee of a pooled arrangement" defined; approval or disapproval within 10 days after receipt.

Sec. 17a. (1) The department may withhold all or part of any payment that a district or intermediate district is entitled to receive under this act to the extent the withholdings are a component part of a plan, developed and implemented pursuant to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821, or other statutory authority, for financing an outstanding obligation upon which the district or intermediate district defaulted. Amounts withheld shall be used to pay, on behalf of the district or intermediate district, unpaid amounts or subsequently due amounts, or both, of principal and interest on the outstanding obligation upon which the district or intermediate district defaulted.

(2) The state treasurer may withhold all or part of any payment that a district or intermediate district is entitled to receive under this act to the extent authorized or required under section 15 of the school bond qualification, approval, and loan act, 2005 PA 92, MCL 388.1935.

(3) Under an agreement entered into by a district or intermediate district assigning all or a portion of the payment that it is eligible to receive under this act to the Michigan finance authority or to the trustee of a pooled arrangement or pledging the amount for payment of an obligation it incurred with the Michigan finance authority or with the trustee of a pooled arrangement, the state treasurer shall transmit to the Michigan finance authority or a trustee designated by the Michigan finance authority or to the trustee of a pooled arrangement the amount of the payment that is assigned or pledged under the agreement.

(4) If a district or intermediate district for which an emergency manager has been appointed pursuant to the local government and school district fiscal accountability act, 2011 PA 4, MCL 141.1501 to 141.1531, or that has an approved deficit elimination plan under section 102, enters into or has entered into an agreement described in subsection (3) pursuant to section 1225(2) of the revised school code, MCL 380.1225, whether the obligation was issued before or after the effective date of this subsection, the portion of state school aid paid or to be paid on behalf of the district or intermediate district directly to the Michigan finance authority, or to a trustee designated by the Michigan finance authority, for the sole purpose of paying the principal of and interest on the obligation is subject to a lien and trust that is a statutory lien and trust, paramount and superior to all other liens and interests of any kind, for the sole purpose of paying the principal of and interest on the obligation. The statutory lien and trust applies to the state school aid received or to be received by the Michigan finance authority, or trustee designated by the Michigan finance authority, on behalf of the district or intermediate district, immediately upon the later of the effective date of this subsection or the time when the state school aid is allocated to the district or intermediate district, but is subject to any subsequent reduction of the state school aid allocation by operation of law or executive order. The lien and trust imposed by this section with respect to state school aid has a priority as established in the agreement, except that the agreement shall not impair any existing lien and trust previously created pursuant to this section, including any lien and trust applicable to a multi-year repayment agreement under section 1225 of the revised school code, 1976 PA 451, MCL 380.1225. Except as otherwise provided in this subsection, the lien and trust created under this subsection for the benefit of holders of the obligation issued pursuant to this section is valid and binding against a party having a claim of any kind in tort, contract, or otherwise against the district or intermediate district that has issued the obligation secured by a pledge of state school aid pursuant to this section, regardless of whether that party has notice of the pledge. A pledge made pursuant to this section for the benefit of the holders of obligations or others is perfected without delivery, recording, or notice. The state school aid paid or to be paid on behalf of a district or intermediate district to the Michigan finance authority, or trustee designated by the Michigan finance authority, shall be held in trust for the sole benefit of the holders of the obligation issued pursuant to this section or section 1225 and is exempt from being levied upon, taken, sequestered, or applied toward paying the debts or liabilities of the district or intermediate district other than for payment of the obligation to which the lien applies. However, nothing in this subsection alters the ability of the state treasurer to withhold state school aid from a district or intermediate district as provided by law.

(5) Notwithstanding the payment dates prescribed by this act for distributions under this act, the state treasurer may advance all or part of a payment that is dedicated for distribution or for which the appropriation authorizing the payment has been made if and to the extent, under the terms of an agreement entered into by a district or intermediate district and the Michigan finance authority, the payment that the district or intermediate district is eligible to receive has been assigned to or pledged for payment of an obligation it incurred with the Michigan finance authority.

(6) This section does not require the state to make an appropriation to any school district or intermediate school district and shall not be construed as creating an indebtedness of the state, and any agreement made pursuant to this section shall contain a statement to that effect.

(7) As used in this section, "trustee of a pooled arrangement" means the trustee of a trust approved by the state treasurer and, subject to the conditions and requirements of that approval, established for the purpose of offering for sale, as part of a pooled arrangement, certificates representing undivided interests in notes issued by districts or intermediate districts under section 1225 of the revised school code, 1976 PA 451, MCL 380.1225.

(8) If a trustee applies to the state treasurer for approval of a trust for the purposes of this section, the state treasurer shall approve or disapprove the trust within 10 days after receipt of the application.

Except as otherwise provided in this act, the portion of the district's or intermediate district's state fiscal year entitlement to be included in each installment shall be 1/11. A district or intermediate district shall accrue the payments received in July and August to the school fiscal year ending the immediately preceding June 30.

(2) The state treasurer shall make payment under this section by drawing a warrant in favor of the treasurer of each district or intermediate district for the amount payable to the district or intermediate district according to the electronic files and delivering the warrant to the treasurer of each district or intermediate district, or if the state treasurer receives a written request by the treasurer of the district or intermediate district specifying an account, by electronic funds transfer to that account of the amount payable to the district or intermediate district according to the electronic files. The department may make adjustments in payments made under this section through additional payments when changes in law or errors in computation cause the regularly scheduled payment to be less than the amount to which the district or intermediate district is entitled pursuant to this act.

(3) Except as otherwise provided in this act, grant payments to districts and intermediate districts under this act shall be paid according to the installment schedule under subsection (1).

(4) Upon the written request of a district or intermediate district and the submission of proof satisfactory to the department of a need of a temporary and nonrecurring nature, the superintendent, with the written concurrence of the state treasurer and the state budget director, may authorize an advance release of funds due a district or intermediate district under this act. An advance authorized under this subsection shall not cause funds to be paid to a district or intermediate district more than 30 days earlier than the established payment date for those funds.

388.1619 Compliance with reporting requirements specified in state and federal law; report

of graduation and dropout rates; educational personnel; information relating to safety practices and criminal incidents; failure to comply with certain requirements; list of schools or districts failing to make adequate yearly progress; appeal of determination; publication of list; legislative intent to implement statewide standard reporting requirements.

Sec. 19. (1) A district or intermediate district shall comply with all applicable reporting requirements specified in state and federal law. Data provided to the center, in a form and manner prescribed by the center, shall be aggregated and disaggregated as required by state and federal law. In addition, a district or intermediate district shall cooperate with all measures taken by the center to establish and maintain a statewide P-20 longitudinal data system.

(2) Each district shall furnish to the center not later than 5 weeks after the pupil membership count day and by June 30 of the school fiscal year ending in the fiscal year, in a manner prescribed by the center, the information necessary for the preparation of the district and high school graduation report. This information shall meet requirements established in the pupil auditing manual approved and published by the department. The center shall calculate an annual graduation and pupil dropout rate for each high school, each district, and this state, in compliance with nationally recognized standards for these calculations. The center shall report all graduation and dropout rates to the senate and house education committees and appropriations committees, the state budget director, and the department not later than 30 days after the publication of the list described in subsection (6).

(5) If a district or intermediate district fails to meet the requirements of this section, the department shall withhold 5% of the total funds for which the district or intermediate district qualifies under this article until the district or intermediate district complies with all of those subsections. If the district or intermediate district does not comply with all of those subsections by the end of the fiscal year, the department shall place the amount withheld in an escrow account until the district or intermediate district complies with all of those subsections.

(6) Before publishing a list of schools or districts determined to have failed to make adequate yearly progress as required by the no child left behind act of 2001, Public Law 107-110, the department shall allow a school or district to appeal that determination. The department shall consider and act upon the appeal within 30 days after it is submitted and shall not publish the list until after all appeals have been considered and decided.

(7) It is the intent of the legislature to implement not later than 2014-2015 statewide standard reporting requirements for education data approved by the department in conjunction with the center. The department shall work with the center, intermediate districts, districts, and other interested stakeholders to develop recommendations on the implementation of this policy change. A district or intermediate district shall implement the statewide standard reporting requirements not later than 2014-2015 or when a district or intermediate district updates its education data reporting system, whichever is later.

388.1620 Foundation allowance; calculations allocations; adjustments; definitions.

Sec. 20. (1) For 2011-2012, and for 2012-2013, the basic foundation allowance is \$8,019.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus \$20.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts]. For 2011-2012, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for 2010-2011, minus \$470.00. Except as otherwise provided in subdivision (h), for 2012-2013, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year. However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2011-2012 in an amount equal to the district's foundation allowance for 2010-2011, minus \$470.00. For 2012-2013, except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for

2012-2013 in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year.

(c) Except as otherwise provided in subdivision (d), for a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. Except as otherwise provided in subdivision (d), for 2011-2012, for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the 2010-2011 fiscal year minus \$470.00. For 2012-2013, except as otherwise provided in subdivision (d), for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the immediately preceding state fiscal year.

(d) For a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00 and that had a foundation allowance for the 2009-2010 state fiscal year, as otherwise calculated under this section, that was less than the basic foundation allowance, the district's foundation allowance for 2011-2012 and each succeeding fiscal year shall be considered to be an amount equal to the basic foundation allowance.

(e) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(f) For a district that received a payment under section 22c as that section was in effect for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c as that section was in effect for 2001-2002.

(g) For a district that received a payment under section 22c as that section was in effect for 2006-2007, the district's 2006-2007 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2006-2007 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2006-2007 under section 22c as that section was in effect for 2006-2007.

(h) For 2012-2013, for a district that had a foundation allowance for the 2011-2012 state fiscal year of less than \$6,966.00, the district's foundation allowance is an amount equal to \$6,966.00.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district described in subsection (3)(c), the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the

foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district in which the public school academy is located or the state maximum public school academy allocation, whichever is less. However, a public school academy that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) Except as otherwise provided in this subsection, for pupils attending an achievement school and in membership in the education achievement system, other than special education pupils, the allocation calculated under this section is an amount per membership pupil other than special education pupils equal to the foundation allowance of the district in which the achievement school is located, not to exceed the basic foundation allowance. Notwithstanding section 101, for an achievement school that begins operation after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the achievement school after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection. For the purposes of this subsection, if a public school is transferred from a district to the state school reform/redesign district or the achievement authority under section 1280c of the revised school code, that public school is considered to be an achievement school within the education achievement system and not a school that is part of a district, and a pupil attending that public school is considered to be in membership in the education achievement system and not in membership in the district that operated the school before the transfer.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and

economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. However, for 2011-2012, the index shall be 0.93575 and for 2012-2013, the index shall be 1.00. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) For a district in which 7.75 mills levied in 1992 for school operating purposes in the 1992-93 school year were not renewed in 1993 for school operating purposes in the 1993-94 school year, the district's combined state and local revenue per membership pupil shall be recalculated as if that millage reduction did not occur and the district's foundation allowance shall be calculated as if its 1994-95 foundation allowance had been calculated using that recalculated 1993-94 combined state and local revenue per membership pupil as a base. A district is not entitled to any retroactive payments for fiscal years before 2000-2001 due to this subsection. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(13) For a district in which an industrial facilities exemption certificate that abated taxes on property with a state equalized valuation greater than the total state equalized valuation of the district at the time the certificate was issued or \$700,000,000.00, whichever is greater, was issued under 1974 PA 198, MCL 207.551 to 207.572, before the calculation of the district's 1994-95 foundation allowance, the district's foundation allowance for 2002-2003 is an amount equal to the sum of the district's foundation allowance for 2002-2003, as otherwise calculated under this section, plus \$250.00. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(14) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of 100% of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the number of pupils in the district's membership for 2001-2002 who were residents of and enrolled in the district. Except as otherwise provided in this subsection, a district qualifying for a foundation allowance adjustment under this subsection shall use the funds resulting from this adjustment for at least 1 of grades K to 3 for purposes allowable under former section 32e as in effect for 2001-2002. For an individual school or schools operated by a district qualifying for a foundation allowance under this subsection that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district may submit to the department an application for flexibility in using the funds resulting from this adjustment that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to reduce class size, but that may be different from the purposes otherwise allowable under this subsection. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to reduce class size. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) For a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.

(6) Subject to conditions set forth in this subsection, from the allocation in subsection (1), there is allocated for 2011-2012 only an amount not to exceed \$6,000,000.00 for payments to districts that meet the eligibility requirements under this subsection, for the reduction in school operating revenues resulting from a settlement or other disposition of appeals described in subdivision (a). A payment may only be made under this subsection if a settlement agreement is signed by all applicable parties. Payments made under this subsection shall be in accordance with the settlement agreement. All of the following apply to payments under this subsection:

(a) To be eligible for a payment under this subsection, a district shall be determined by the department and the department of treasury to meet all of the following:

(i) The district does not receive any state portion of its foundation allowance, as calculated under section

20(4).

(ii) Before January 1, 2011, the owner of a natural-gas-powered power plant located in a renaissance zone within the district's geographic boundaries for 2009 and 2010 appealed to the Michigan tax tribunal an order of the state tax commission for tax years 2009 and 2010 pursuant to section 154 of the general property tax act, 1893 PA 206, MCL 211.154, and appealed to the state tax commission the 2011 classification and valuation of the power plant.

(iii) The district received a reduced amount of local school operating revenue for tax years 2009, 2010, and 2011 as a result of the exemptions of industrial personal property and commercial personal property under section 1211 of the revised school code, MCL 380.1211.

(iv) A settlement agreement has been signed to resolve the Michigan tax tribunal appeal described in subparagraph (ii) and a memorandum of understanding that stipulates terms of the settlement has been executed by the parties.

(b) A payment made under this subsection shall be in addition to renaissance zone reimbursement amounts paid in the 2009-2010 and 2010-2011 state fiscal years under section 26a to districts eligible for payment under this subsection. The 2009-2010 and 2010-2011 state fiscal year payments under section 26a to a district receiving a payment under this subsection shall not be reduced as a result of the reduction to the district's 2009 and 2010 taxable value of real property under the appeals described in subdivision (a)(ii).

388.1622b Allocations for 2011-2012 and 2012-2013; discretionary nonmandated payments; duties of district; purchase of software; payments for litigation costs; allegation of unfunded constitutional requirement; escrowed funds as work project; purpose; determination; review of claim by local claims review board; removal to court of appeals; payment provisions; "title XIX" defined; report to legislature identifying amount of savings.

Sec. 22b. (1) From the state funds appropriated in section 11, there is allocated for 2011-2012 an amount not to exceed \$3,052,000,000.00 and there is allocated for 2012-2013 an amount not to exceed \$3,152,300,000.00 for discretionary nonmandated payments to districts under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) Subject to subsection (3) and section 296, the allocation to a district under this section shall be an amount equal to the sum of the amounts calculated under sections 20, 51a(2), 51a(3), and 51a(11), minus the sum of the allocations to the district under sections 22a and 51c.

(3) In order to receive an allocation under subsection (1), each district shall do all of the following:

(a) Administer in each grade level that it operates in grades 1 to 5 a standardized assessment approved by the department of grade-appropriate basic educational skills. A district may use the Michigan literacy progress profile to satisfy this requirement for grades 1 to 3. Also, if the revised school code is amended to require annual assessments at additional grade levels, in order to receive an allocation under this section each district shall comply with that requirement.

(b) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a and 380.1278b.

(c) Furnish data and other information required by state and federal law to the center and the department in the form and manner specified by the center or the department, as applicable.

(d) Comply with section 1230g of the revised school code, MCL 380.1230g.

(4) Districts are encouraged to use funds allocated under this section for the purchase and support of payroll, human resources, and other business function software that is compatible with that of the intermediate district in which the district is located and with other districts located within that intermediate district.

(5) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state related to commercial or industrial property tax appeals, including, but not limited to, appeals of classification, that impact revenues dedicated to the state school aid fund.

(6) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection shall be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project shall be completed upon resolution of the litigation.

(8) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director shall use work project funds under subsection (7) or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the amount owed to districts before making any payments to districts under subsection (2).

(9) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals shall have and shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review board or a court of

competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project shall be completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, 42 USC 1396 to 1396v.

(12) Not later than January 1, 2013, the department shall submit a report to the legislature identifying the amount of the savings that the department has calculated as having been achieved due to the revised number of instructional hours used to calculate full-time equated memberships for kindergarten pupils under section 6(4)(r) as amended by 2011 PA 62.

388.1622f Incentive payments to districts meeting best practices; definitions; dashboard or report card; submission of false information; allocation of unexpended amounts.

Sec. 22f. (1) From the appropriation in section 11, there is allocated for 2012-2013 an amount not to exceed \$80,000,000.00 to provide incentive payments to districts that meet best practices under this section. Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The amount of the incentive payment under this section is an amount equal to \$52.00 per pupil. A district shall receive an incentive payment under this section if the district satisfies at least 7 of the following requirements not later than June 1, 2013:

(a) If a district provides medical, pharmacy, dental, vision, disability, long-term care, or any other type of benefit that would constitute a health care services benefit, to employees and their dependents, the district is the policyholder for each of its insurance policies that covers 1 or more of these benefits. A district that does not directly employ its staff is considered to have satisfied this requirement.

(b) The district has obtained competitive bids on the provision of pupil transportation, food service, custodial, or 1 or more other noninstructional services for 2012-2013.

(c) The district accepts applications for enrollment by nonresident applicants under section 105 or 105c. A public school academy is considered to have met this requirement.

(d) The district monitors individual pupil academic growth in each subject area at least twice during the school year using competency-based online assessments and reports those results to the pupil and his or her parent or guardian, or provides the department with a plan and is able to show progress toward developing the technology infrastructure necessary for the implementation of pupil academic growth assessments by 2014-2015.

(e) The district supports opportunities for pupils to receive postsecondary credit while attending secondary school, by doing at least 1 of the following, and makes all eligible pupils and their parents or guardians aware of these opportunities:

(i) Supports attendance of district pupils under the postsecondary enrollment options act, MCL 388.511 to 388.524, or under the career and technical preparation act, MCL 388.1901 to 388.1913, consistent with provisions under section 21b.

(ii) Offers college-level equivalent courses, as defined in section 1471 of the revised school code, MCL 380.1471.

(iii) Participates in a middle college. For the purposes of this subparagraph, "middle college" means a series of courses and other requirements and conditions that allow a pupil to graduate with a high school diploma and a certificate or degree from a community college or state public university.

(iv) Provides other opportunities to pupils that allow those pupils to graduate with a high school diploma and also complete coursework that a postsecondary institution normally applies toward satisfaction of degree requirements.

(v) If a district does not offer any high school grades, the district informs all pupils and parents of the opportunities that are available for postsecondary options during high school.

(f) The district offers online instructional programs or blended learning opportunities to all eligible pupils. In order to satisfy this requirement, districts must make all eligible pupils and their parents or guardians aware of these opportunities. For the purposes of this subdivision:

(i) "Blended learning" means a hybrid instructional delivery model where pupils are provided face-to-face instruction, in part at a supervised school facility away from home and partially through computer-based and internet-connected learning environments with some degree of pupil control over time, location, and pace of instruction.

(ii) "Online instructional program" means a course of study that generates a credit or a grade, provided in an interactive computer-based and internet-connected learning environment, in which pupils are separated from their teachers by time or location, or both, and in which a Michigan certificated teacher is responsible for providing direct instruction, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies, reporting outcomes, and evaluating the effects of instruction and support strategies.

(g) The district provides to parents and community members a dashboard or report card demonstrating the district's efforts to manage its finances responsibly. The dashboard or report card shall include at least all of the following for the 3 most recent school years for which the data are available:

(i) Graduation and dropout rates.

(ii) Average class size in grades kindergarten to 3.

(iii) College readiness as measured by Michigan merit examination test scores.

(iv) Elementary and middle school MEAP scores.

(3) If the department determines that a district has intentionally submitted false information in order to qualify for an incentive payment under this section, the district forfeits an amount equal to the amount it received under this section from its total state school aid for 2013-2014.

(4) If the department determines that funds allocated under this section will remain unexpended after the initial allocation of \$52.00 per pupil to eligible districts under subsection (2), the remaining unexpended amount is allocated on an equal per pupil basis to districts that meet the requirements of subsection (2) and that have a foundation allowance, as calculated under section 20, in an amount that is less than the basic foundation allowance under that section.

(1) From the state school aid fund money appropriated in section 11, there is allocated for 2011-2012 only an amount not to exceed \$4,000,000.00 for distressed district student transition grants under this section. The department shall pay these grants to districts that qualify under subsection (2) or a district or intermediate district that qualifies under subsection (3). The amount of a distressed district student transition grant is an amount equal to \$4,000.00 per qualifying pupil, adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(2) A district qualifies for a distressed district student transition grant under this subsection if the district

enrolls 1 or more qualifying pupils in the district. All of the following apply to a grant to a district that qualifies under this subsection:

(a) In order to be eligible for a grant, the district shall allow enrollment of qualifying pupils in the district beginning by not later than March 5, 2012.

(b) The total amount of the district's grant is the per pupil amount described in subsection (1) multiplied by the number of full-time equated qualifying pupils who are actually enrolled and in regular daily attendance in the district in grades K to 12 on March 22, 2012, as reported to the center for educational performance and information by not later than May 2, 2012. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit.

(c) The district is not required to have the approval of the distressed district to enroll a qualifying pupil and receive a grant for the pupil under this subsection.

(d) The district offering to enroll qualifying pupils under this subsection may limit the number of qualifying pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll a qualifying pupil.

(e) A qualifying pupil shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a qualifying pupil if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intradistrict choice school or program to which the applicant applies.

(f) A qualifying pupil shall not be granted or refused enrollment based on age, except that a district may refuse to admit a qualifying pupil applying for a program that is not appropriate for the age of the applicant.

(g) A qualifying pupil shall not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(h) A district may refuse to enroll a qualifying pupil if any of the following are met:

(i) The qualifying pupil is, or has been within the preceding 2 years, suspended from another school.

(ii) The qualifying pupil, at any time before enrolling under this section, has been expelled from another school.

(iii) The qualifying pupil, at any time before enrolling under this section, has been convicted of a felony.

(3) A district or intermediate district qualifies for a distressed district student transition grant under this subsection if the district or intermediate district is a party to a memorandum of agreement with a distressed district that has an emergency manager appointed for the distressed district under the local government and school district fiscal accountability act, 2011 PA 4, MCL 141.1501 to 141.1531, and the memorandum of agreement makes the other district or intermediate district the managing district for the distressed district and meets the other requirements under this subsection. All of the following apply to a grant under this subsection:

(a) The memorandum of agreement must meet all of the following requirements:

(i) Transfers the functions of managing the distressed district to the managing district and specifies the powers, duties, rights, obligations, functions, and responsibilities that are transferred to the managing district and the services to be provided by the managing district.

(ii) Ensures payment for the personnel of the distressed district as necessary for the education of the pupils who are counted in the distressed district under subdivision (b) for the remainder of the 2011-2012 school year.

(iii) Both the identity of the managing district and the content of the memorandum of agreement are approved by the state treasurer.

(iv) If the memorandum of agreement makes an intermediate district the managing district for the distressed district, the distressed district is located within that intermediate district.

(b) The total amount of the managing district's grant under this subsection is the per pupil amount described in subsection (1) multiplied by the number of full-time equated qualifying pupils who remain enrolled in the distressed district and who are actually enrolled and in regular daily attendance in the distressed district in grades K to 12 on March 22, 2012, as reported by the managing district to the center for educational performance and information by not later than May 2, 2012. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit.

(4) Notwithstanding section 17b, grant payments under this section shall be paid on a schedule and in a manner determined by the department.

(5) As used in this section:

388.1622j Incentive payments for student performance.

Sec. 22j. (1) From the appropriation in section 11, there is allocated for 2012-2013 an amount not to exceed \$30,000,000.00 to provide separate incentive payments to districts that meet student academic performance funding goals under subsections (2) to (5). Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The maximum amount of the incentive payment for student academic performance is an amount equal to \$100.00 per pupil. Payments calculated and awarded to qualifying districts under subsections (3) to (5) shall be calculated and awarded separately, and a district may receive a payment under any or all of subsections (3) to (5).

(3) An amount not to exceed 30% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection based on pupil performance on state assessments in mathematics in grades 3 to 8. The amount of a payment under this subsection is an amount equal to \$30.00 per pupil for all pupils in membership in a qualifying district. The department shall determine the qualifying districts under this subsection as follows:

(a) Using a model determined by the department that incorporates the most recent cut scores adopted for the Michigan educational assessment program for each pupil in grades 3 to 8 in the 2010-2011 school year, the department shall calculate a point score using a metric that assigns points to each of those pupils as follows:

(i) For each pupil who began the school year not performing proficiently in mathematics and who declines in proficiency, as determined by the department, over the school year, 0 points.

(ii) For each pupil who began the school year performing proficiently in mathematics and declines in proficiency, as determined by the department, over the school year, 0 points.

(iii) For each pupil who began the school year not performing proficiently in mathematics and who maintains his or her level of proficiency, as determined by the department, over the school year, 1 point.

(iv) For each pupil who began the school year performing proficiently in mathematics and who maintains his or her level of proficiency, as determined by the department, over the school year, 2 points.

(v) For each pupil who began the school year not performing proficiently in mathematics and who improves in proficiency, as determined by the department, over the school year, 3 points.

(vi) For each pupil who began the school year performing proficiently in mathematics and who improves in proficiency, as determined by the department, over the school year, 2 points.

(b) The department shall then calculate a district average for this metric for the 2010-2011 school year by totaling the number of points for all pupils in grades 3 to 8 under subdivision (a) and dividing that total by the

number of those pupils.

(c) A district is a qualifying district for the payment under this subsection if the district average for the 2010-2011 school year under subdivision (b) is at least equal to a factor of 1.5, and the district tested at least 95% of its pupils in mathematics, and the district had at least 30 full academic year pupils in grades 3 to 8 with a performance level change designation in mathematics.

(4) An amount not to exceed 30% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection based on pupil performance on state assessments in reading in grades 3 to 8. The amount of a payment under this subsection is an amount equal to \$30.00 per pupil for all pupils in membership in the district. The department shall determine the qualifying districts under this subsection as follows:

(a) Using a model determined by the department that incorporates the most recent cut scores adopted for the Michigan educational assessment program for each pupil in grades 3 to 8 in the 2010-2011 school year, the department shall calculate a point score using a metric that assigns points to each of those pupils as follows:

(i) For each pupil who began the school year not performing proficiently in reading and who declines in proficiency, as determined by the department, over the school year, 0 points.

(ii) For each pupil who began the school year performing proficiently in reading and declines in proficiency, as determined by the department, over the school year, 0 points.

(iii) For each pupil who began the school year not performing proficiently in reading and who maintains proficiency, as determined by the department, over the school year, 1 point.

(iv) For each pupil who began the school year performing proficiently in reading and who maintains proficiency, as determined by the department, over the school year, 2 points.

(v) For each pupil who began the school year not performing proficiently in reading and who improves in proficiency, as determined by the department, over the school year, 3 points.

(vi) For each pupil who began the school year performing proficiently in reading and who improves in proficiency, as determined by the department, over the school year, 2 points.

(b) The department shall then calculate a district average for this metric for the 2010-2011 school year by totaling the number of points for all pupils in grades 3 to 8 under subdivision (a) and dividing that total by the number of those pupils.

(c) A district is a qualifying district for the payment under this subsection if the district average for the 2010-2011 school year under subdivision (b) is at least equal to a factor of 1.5, and the district tested at least 95% of its pupils in reading, and the district had at least 30 full academic year pupils in grades 3 to 8 reading with a performance level change designation in reading.

(5) An amount not to exceed 40% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection for high school improvement using a metric based on the positive trend over a 4-year period in the percentage of high school pupils in the district testing as proficient in all tested subject areas on the state assessments of high school pupils. The amount of a payment under this subsection is an amount equal to \$40.00 per pupil for all pupils in membership in the district. The department shall determine the qualifying districts under this subsection as follows:

(a) Calculate a linear regression of the percentage of high school pupils in the district testing as proficient in all tested subject areas on state assessments of high school pupils on school year over the 4-year period ending with the 2010-2011 school year as adjusted for changes in cut scores most recently adopted for the Michigan merit examination.

(b) Calculate a statewide average for all districts operating a high school of the linear regression of the percentage of high school pupils testing as proficient in all tested subject areas on state assessments of high school pupils on school year over the 4-year period ending with the 2010-2011 school year, as adjusted for changes in cut scores most recently adopted for the Michigan merit examination as the base year for all comparisons.

(c) A district is a qualifying district for the payment under this subsection if the district's linear regression over the 4-year period ending with the 2010-2011 school year under subdivision (a) is at least equal to the statewide average linear regression over the 4-year period ending with the base year under subdivision (b), and the district's linear regression over the 4-year period ending with the 2010-2011 school year under subdivision (a) is positive, and the district tested 95% of high school pupils in each tested subject on the Michigan merit examination, and the district had at least 20 full academic year pupils take all tested subjects on the Michigan merit examination over each of the most recent 4 years.

(6) If the allocation under subsection (1) is insufficient to fully fund payments as otherwise calculated under this section, the department shall prorate payments under this section on an equal percentage basis.

Sec. 24. (1) From the appropriation in section 11, there is allocated for 2012-2013 an amount not to exceed \$8,000,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

(2) The total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services or the department of licensing and regulatory affairs and approved by the department to provide an on-grounds education program. Added cost shall be computed by deducting all other revenue received under this act for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a shall not be funded under this section.

“(3) Special education pupils funded under section 53 shall not be counted under this section.”

In his veto message relative to Enrolled House Bill 4572, which became Act 118 of 1991, the governor stated that “the tradition of not re-enacting annually the unchanged appropriation sections of the school aid act is constitutionally flawed. It assumes the invalid creation of a continuing appropriation. Therefore, the following sections of the school aid act and their associated allocations must be considered inoperative: 24, 55, 74, 75, 105a, 111, and 116. These sections will be treated as excluded from the current bill... .”

In subsection (2), as amended by Act 297 of 2000, the last sentence “In addition, a district or intermediate district that received funds under this subsection for 1998-99 for an on-grounds educational program that is longer than 181 days but not longer than 233 days shall continue to receive funds under this section for subsequent fiscal years for that program” was vetoed by the governor July 26, 2000.

A public school academy that began operations as a public school academy, or an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy or in the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department not later than the fifth Wednesday after the pupil membership count day of the current fiscal year and adjusted not later than December 31 of the current fiscal year, an amount per pupil equal to 11.5% of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year.

(4) Except as otherwise provided in this section, a district or public school academy, or the education achievement system, receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5), (6), or (7). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), or the education achievement system if it meets this requirement, may use not more than 20% of the funds it receives under this section for school security. A district, the public school academy, or the education achievement system shall not use any of that money for administrative costs or to supplant another program or other funds, except for funds allocated to the district or public school academy or the education achievement system under this section in the immediately preceding year and already being used by the district or public school academy or the education achievement system for at-risk pupils. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year and may include, but are not limited to, tutorial services, early childhood programs to serve children age 0 to 5, and reading programs as described in former section 32f as in effect for 2001-2002. A tutorial method may be conducted with paraprofessionals working under the supervision of a certificated teacher. The ratio of pupils to paraprofessionals shall be between 10:1 and 15:1. Only 1 certificated teacher is required to supervise instruction using a tutorial method. As used in this subsection, "to supplant another program" means to take the place of a previously existing instructional program or direct noninstructional services funded from a funding source other than funding under this section.

(5) Except as otherwise provided in subsection (12), a district or public school academy that receives funds

under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, or the education achievement system if it operates a school breakfast program, shall use from the funds received under this section an amount, not to exceed \$10.00 per pupil for whom the district or public school academy or the education achievement system receives funds under this section, necessary to pay for costs associated with the operation of the school breakfast program.

(6) From the funds allocated under subsection (1), there is allocated for 2012-2013 an amount not to exceed \$3,557,300.00 to support child and adolescent health centers. These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. To continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (14) for that fiscal year.

(7) From the funds allocated under subsection (1), there is allocated for 2012-2013 an amount not to exceed \$5,150,000.00 for the state portion of the hearing and vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL 333.9301. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule determined by the department.

(8) Each district or public school academy receiving funds under this section and the education achievement system shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy or the education achievement system of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy or the education achievement system using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy or the education achievement system does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy or the education achievement system complies with this subsection. If the district or public school academy or the education achievement system does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy or the education achievement system shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy or the education achievement system shall reimburse the state for all disallowances found in the audit.

(10) Subject to subsections (5), (6), (7), (12), and (13), any district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) exceeds the district's aggregate percentage of those pupils. Subject to subsections (5), (6), (7), (12), and (13), if a district obtains a waiver from the department, the district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district's aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building. To obtain a waiver, a district must apply to the department and demonstrate to the satisfaction of the department that the class size reductions would be in the best interests of the district's at-risk pupils.

(11) A district or public school academy or the education achievement system may use funds received under this section for adult high school completion, general educational development (G.E.D.) test preparation, adult English as a second language, or adult basic education programs described in section 107.

(12) For an individual school or schools operated by a district or public school academy receiving funds

under this section or the education achievement system that have been determined by the department to meet the adequate yearly progress standards of the no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district or public school academy or the education achievement system may use not more than 20% of the funds it receives under this section for specific alternative purposes identified by the district or public school academy or the education achievement system that are designed to benefit at-risk pupils in the school, but that may be different from the purposes otherwise allowable under this section. If a district or public school academy or the education achievement system uses funds for alternative purposes allowed under the flexibility provisions under this subsection, the district or public school academy or the education achievement system shall maintain documentation of the amounts used for those alternative purposes and shall make that information available to the department upon request.

(13) A district or public school academy that receives funds under this section or the education achievement system may use funds it receives under this section to implement and operate an early intervening program for pupils in grades K to 3 that meets either or both of the following:

(a) Monitors individual pupil learning and provides specific support or learning strategies to pupils as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Provides early intervening strategies using school-wide systems of academic and behavioral supports and is scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

(14) If necessary, and before any proration required under section 11, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (1).

(15) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section.

(16) As used in this section, "at-risk pupil" means a pupil for whom the district has documentation that the pupil meets at least 2 of the following criteria: is a victim of child abuse or neglect; is below grade level in English language and communication skills or mathematics; is a pregnant teenager or teenage parent; is eligible for a federal free or reduced-price lunch subsidy; has atypical behavior or attendance patterns; or has a family history of school failure, incarceration, or substance abuse. For pupils for whom the results of at least the applicable Michigan education assessment program (MEAP) test have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve at least a score of level 2 on the most recent MEAP English language arts, mathematics, science test, or social studies for which results for the pupil have been received. For pupils for whom the results of the Michigan merit examination have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve proficiency on the reading component of the most recent Michigan merit examination for which results for the pupil have been received, did not achieve proficiency on the mathematics component of the most recent Michigan merit examination for which results for the pupil have been received, or did not achieve basic competency on the science component of the most recent Michigan merit examination for which results for the pupil have been received. For pupils in grades K-3, at-risk pupil also includes a pupil who is at risk of not meeting the district's core academic curricular objectives in English language arts or mathematics.

(17) A district or public school academy that receives funds under this section or the education

achievement system may use funds received under this section to provide an anti-bullying or crisis intervention program.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(i) Teachers possessing proper training. For programs managed directly by a district or intermediate district, a valid teaching certificate and an early childhood (ZA or ZS) endorsement are required. In that situation, a teacher must have a valid Michigan teaching certificate with an early childhood (ZA or ZS) endorsement, a valid Michigan elementary teaching certificate with a child development associate credential, or a bachelor's degree in child development with specialization in preschool teaching. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. The program budget shall indicate the extent to which these funds will supplement other federal, state, local, or private funds. Funds received under this section shall not be used to supplant any federal funds by the applicant to serve children eligible for a federally funded existing preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the amount of the grant award. A grant award shall not be increased solely on the basis of providing a school-day program.

(7) An intermediate district or consortium of intermediate districts receiving a grant under this section may contract with for-profit or nonprofit preschool center providers that meet all requirements of subsection (4) and retain for administrative services an amount equal to not more than 5% of the grant amount. An intermediate district, consortium of intermediate districts, or competitive grant program may expend not more than 10% of the total grant amount for administration of the program.

(8) Any public or private for-profit or nonprofit legal entity or agency may apply for a competitive grant under this section. However, a district or intermediate district may not apply for a competitive grant under this section unless the district, intermediate district, or consortium of districts or intermediate districts is acting as a local grantee for the federal head start program operating under the head start act, 42 USC 9831 to 9852.

(9) A recipient of funds under this section shall report to the department in a form and manner prescribed by the department the number of children participating in the program who meet the income or other eligibility criteria prescribed by the department and the total number of children participating in the program. For children participating in the program who meet the income or other eligibility criteria specified under subsection (5)(b), a recipient shall also report whether or not a parent is available to provide care based on employment status. For the purposes of this subsection, "employment status" shall be defined by the department of human services in a manner consistent with maximizing the amount of spending that may be claimed for temporary assistance for needy families maintenance of effort purposes.

A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(11) A grant recipient receiving funds under this section is encouraged to establish a sliding scale of tuition rates based upon a child's family income for the purpose of expanding eligible programs under this section. A grant recipient may charge tuition for programs provided under this section according to that sliding scale of tuition rates on a uniform basis for any child who does not meet the program eligibility requirements under this section.

The early childhood block grant program will allocate funds to intermediate districts and consortia of intermediate districts to act as fiduciaries and provide administration of regional early childhood programs in conjunction with their regional great start collaborative to improve program quality, evaluation, and efficiency for early childhood programs. The department shall work with intermediate districts, districts, great start collaboratives, and the early childhood investment corporation to establish a revised funding formula, application process, program criteria, and data reporting requirements.

The funding provided to each intermediate district under this section shall be equal to the sum of all funding allocated under former sections 32b and 32j, as those sections were in effect for 2011-2012. In order to receive funding under this section, each intermediate district shall provide an application to the office of great start not later than August 15, 2012, indicating the activities planned to be provided and children served under the block grant.

Sec. 39. (1) An eligible applicant receiving funds under section 32d shall submit a preapplication, in a form and manner prescribed by the department, by a date specified by the department in the immediately preceding state fiscal year. The preapplication shall include a comprehensive needs assessment using aggregated data from the applicant's entire service area and a community collaboration plan that is endorsed by the local great start collaborative and is part of the community's great start strategic plan that includes, but is not limited to, great start readiness program and head start providers, and shall identify all of the following:

(a) The estimated total number of children in the community who meet the criteria of section 32d and how that calculation was made.

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served by other early childhood development programs operating in the community, and how that calculation was made.

(c) The number of children the applicant will be able to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.

(d) The estimated number of children who meet the criteria of section 32d who will remain unserved after the applicant and community early childhood programs have met their funded enrollments. The applicant

shall maintain a waiting list of identified unserved eligible children who would be served when openings are available.

(2) An applicant receiving funds under section 32d shall also submit a final application for approval, in a form and manner prescribed by the department, by a date specified by the department, that details how the applicant complies with the program components established by the department pursuant to section 32d.

(3) The number of prekindergarten children construed to be in need of special readiness assistance under section 32d shall be calculated for each applicant in the following manner: 1/2 of the percentage of the applicant's pupils in grades 1 to 5 in all districts served by the applicant who are eligible for free lunch, as determined using the district's pupil membership count as of the pupil membership count day in the school year prior to the fiscal year for which the calculation is made, under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, shall be multiplied by the average kindergarten enrollment of the districts served by the applicant on the pupil membership count day of the 2 immediately preceding fiscal years.

(4) The initial allocation for each fiscal year to each eligible applicant under section 32d shall be determined by multiplying the number of children determined by the formula under subsection (3) or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, by \$3,400.00 and shall be distributed among applicants in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children an applicant indicates it will be able to serve under subsection (1)(c) includes children able to be served in a school-day program, then the number able to be served in a school-day program shall be doubled for the purposes of making this calculation of the lesser of the number of children determined by the formula under subsection (3) and the number of children the applicant indicates it will be able to serve under subsection (1)(c) and determining the amount of the initial allocation to the applicant under section 32d. A district may contract with a head start agency to serve children enrolled in head start with a school-day program by blending head start funds with a part-day great start readiness program allocation. All head start and great start readiness program policies and regulations apply to the blended program.

(5) If funds allocated for eligible applicants in section 32d remain after the initial allocation under subsection (4), the allocation under this subsection shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). The allocation shall be determined by multiplying the number of children each district within the applicant's service area served in the immediately preceding fiscal year or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, minus the number of children for which the applicant received funding in subsection (4) by \$3,400.00.

(6) If funds allocated for eligible applicants in section 32d remain after the allocations under subsections (4) and (5), remaining funds shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children the applicant indicates it will be able to serve under subsection (1)(c) exceeds the number of children for which funds have been received under subsections (4) and (5), the allocation under this subsection shall be determined by multiplying the number of children the applicant indicates it will be able to serve under subsection (1)(c) less the number of children for which funds have been received under subsections (4) and (5) by \$3,400.00 until the funds allocated for eligible applicants in section 32d are distributed.

(7) An applicant that offers supplementary child care funded by funds other than those received under section 32d and therefore offers full-day programs as part of its early childhood development program shall receive priority in the allocation of funds under section 32d over other eligible applicants. As used in this subsection, "full-day program" means a program that provides supplementary child care that totals at least 10 hours of programming per day.

(8) If, taking into account the total amount to be allocated to the applicant as calculated under this section, an applicant determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the applicant may include additional eligible children but shall not receive additional funding under section 32d for those children.

Sec. 51a. (1) From the appropriation in section 11, there is allocated for 2011-2012 an amount not to exceed \$956,769,100.00 and there is allocated an amount not to exceed \$996,269,100.00 for 2012-2013 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$363,400,000.00 for 2011-2012 and estimated at \$365,000,000.00 for 2012-2013, plus any carryover federal funds from previous year appropriations. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1766; net tuition payments made by intermediate districts to the Michigan schools for the deaf and blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. All federal funds allocated under this section in excess of those allocated under this section for 2002-2003 may be distributed in accordance with the flexible funding provisions of the individuals with disabilities education act, Public Law 108-446, including, but not limited to, 34 CFR 300.206 and 300.208. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at \$247,500,000.00 for 2011-2012 and estimated at \$257,400,000.00 for 2012-2013, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education

transportation. Allocations under this subsection shall be made as follows:

(a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil calculated under section 20(6) or, for a pupil described in this subsection who is counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (11), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year.

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated each fiscal year for 2011-2012 and for 2012-2013 an amount not to exceed \$1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department each fiscal year for 2011-2012 and for 2012-2013 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 each fiscal year for 2011-2012 and for 2012-2013 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds

included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis. This reimbursement shall not be made after 2014-2015.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$5,300,000.00 for 2011-2012 and estimated at \$5,600,000.00 for 2012-2013, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal

to the amount per membership pupil under section 20(6) or, for a pupil described in this subsection who is counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year. This subsection applies to all of the following pupils:

- (a) Pupils described in section 53a.
- (b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.
- (c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of community health.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

- (a) 100% of the reimbursement required under section 53a.
- (b) 100% of the reimbursement required under subsection (6).
- (c) 100% of the payment required under section 54.
- (d) 100% of the payment required under subsection (3).
- (e) 100% of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

(14) If a public school academy enrolls pursuant to this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the provision of special education programs and services and the payment of the added costs of special education programs and services for the pupil are the responsibility of the district and intermediate district in which the pupil resides unless the enrolling district or intermediate district has a written agreement with the district or intermediate district in which the pupil resides or the public school academy for the purpose of providing the pupil with a free appropriate public education and the written agreement includes at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil.

388.1651c Reimbursement for percentage of special education and special education transportation costs.

Sec. 51c. As required by the court in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492, from the allocation under section 51a(1), there is allocated each fiscal year for 2011-2012 and for 2012-2013 the amount necessary, estimated at \$648,700,000.00 for 2011-2012 and estimated at \$678,000,000.00 for 2012-2013, for payments to reimburse districts for 28.6138% of total approved costs of special education excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. 388.1701 Eligibility to receive state aid; submission of number of pupils enrolled and in regular daily attendance; certification of data; noncompliance; withholding state aid; falsification; pupil instruction; minimum number of hours or days; guidelines; waiver; counting number of hours of qualifying teacher professional development; applicability of subsections (3) and (8) to cyber school.

Sec. 101. (1) To be eligible to receive state aid under this act, not later than the fifth Wednesday after the pupil membership count day and not later than the fifth Wednesday after the supplemental count day, each district superintendent shall submit to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district as of the pupil membership count day and as of the supplemental count day, as applicable, for the current school year. In addition, a district maintaining school during the entire year, as provided under section 1561 of the revised school code, MCL 380.1561, shall submit to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district for the current school year pursuant to rules promulgated by the superintendent. Not later than the seventh Wednesday after the pupil membership count day and not later than the sixth Wednesday after the supplemental count day, the district shall certify the data in a form and manner prescribed by the center and file the certified data with the intermediate superintendent. If a district fails to submit and certify the attendance data, as required under this subsection, the center shall notify the department and state aid due to be distributed under this article shall be withheld from the defaulting district immediately, beginning with the next payment after the failure and continuing with each payment until the district complies with this subsection. If a district does not comply with this subsection by the end of the fiscal year, the district forfeits the amount withheld. A person who willfully falsifies a figure or statement in the certified and sworn copy of enrollment shall be punished in the manner prescribed by section 161.

(2) To be eligible to receive state aid under this article, not later than the twenty-fourth Wednesday after the pupil membership count day and not later than the twenty-fourth Wednesday after the supplemental count day, an intermediate district shall submit to the center, in a form and manner prescribed by the center, the audited enrollment and attendance data for the pupils of its constituent districts and of the intermediate district. If an intermediate district fails to submit the audited data as required under this subsection, state aid due to be distributed under this article shall be withheld from the defaulting intermediate district immediately, beginning with the next payment after the failure and continuing with each payment until the intermediate district complies with this subsection. If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.

(3) Except as otherwise provided in subsection (11), all of the following apply to the provision of pupil instruction:

(a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours and, beginning in 2010-2011, the required minimum number of days of pupil instruction. For 2010-2011 and for 2011-2012, the required minimum number of days of pupil instruction is 165. Beginning in 2012-2013, the required minimum number of days of pupil instruction is 170. However, beginning in 2010-2011, a district shall not provide fewer days of pupil instruction than the district provided for 2009-2010. A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(b) Except as otherwise provided in this article, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection shall forfeit from its total state aid allocation an

amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. Not later than August 1, the board of each district shall certify to the department the number of hours and, beginning in 2010-2011, days of pupil instruction in the previous school year. If the district did not provide at least the required minimum number of hours and days of pupil instruction under this subsection, the deduction of state aid shall be made in the following fiscal year from the first payment of state school aid. A district is not subject to forfeiture of funds under this subsection for a fiscal year in which a forfeiture was already imposed under subsection (6).

(c) Hours or days lost because of strikes or teachers' conferences shall not be counted as hours or days of pupil instruction.

(d) If a collective bargaining agreement that provides a complete school calendar is in effect for employees of a district as of October 19, 2009, and if that school calendar is not in compliance with this subsection, then this subsection does not apply to that district until after the expiration of that collective bargaining agreement.

(e) Except as otherwise provided in subdivision (f), a district not having at least 75% of the district's membership in attendance on any day of pupil instruction shall receive state aid in that proportion of 1/180 that the actual percent of attendance bears to the specified percentage.

(f) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent may grant a waiver from the requirements of subdivision (e) in order to conduct a pilot study. The waiver shall indicate that an eligible district is subject to the proration provisions of subdivision (e) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements during the pilot study:

(i) The district offers the minimum hours of pupil instruction as required under this section.

(ii) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(iii) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(g) The superintendent shall promulgate rules for the implementation of this subsection.

(4) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, shall be counted as hours and days of pupil instruction. With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 6 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district after April 1 of the applicable school year due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours or days shall not be counted as hours or days of pupil instruction.

(5) A district shall not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following has occurred in a district, the district shall forfeit in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the

required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, shall be considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a junior reserve officer training corps (JROTC) program shall be considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(i) The instructor has met all of the requirements established by the United States department of defense and the applicable branch of the armed services for serving as an instructor in the junior reserve officer training corps program.

(ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsection (11), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent may waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, for the fiscal year covered by the waiver the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture shall be calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). Pupils enrolled in a department-approved alternative education program under this subsection shall be reported to the center in a form and manner determined by the center.

(10) A district may count up to 38 hours of qualifying professional development for teachers as hours of pupil instruction. Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers, which shall include the Michigan virtual school. As used in this subsection, "qualifying professional development" means professional development that is focused on 1 or more of the following:

(a) Achieving or improving adequate yearly progress as defined under the no child left behind act of 2001, Public Law 107-110.

(b) Achieving accreditation or improving a school's accreditation status under section 1280 of the revised school code, MCL 380.1280.

(c) Achieving highly qualified teacher status as defined under the no child left behind act of 2001, Public Law 107-110.

(d) Integrating technology into classroom instruction.

(e) Maintaining teacher certification.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a.

Sec. 104b. (1) In order to receive state aid under this act, a district shall comply with this section and shall administer the Michigan merit examination to pupils in grade 11, and to pupils in grade 12 who did not take the complete Michigan merit examination in grade 11, as provided in this section.

(2) For the purposes of this section, the department of management and budget shall contract with 1 or more providers to develop, supply, and score the Michigan merit examination. The Michigan merit examination shall consist of all of the following:

(a) Assessment instruments that measure English language arts, mathematics, reading, and science and are used by colleges and universities in this state for entrance or placement purposes. This shall include a writing component in which the pupil produces an extended writing sample. The Michigan merit examination shall not require any other extended writing sample.

(b) One or more tests from 1 or more test developers that assess a pupil's ability to apply at least reading and mathematics skills in a manner that is intended to allow employers to use the results in making employment decisions. The department of management and budget and the superintendent shall ensure that any test or tests selected under this subdivision have all the components necessary to allow a pupil to be eligible to receive the results of a nationally recognized evaluation of workforce readiness if the pupil's test performance is adequate.

(c) A social studies component.

(d) Any other component that is necessary to obtain the approval of the United States department of education to use the Michigan merit examination for the purposes of the federal no child left behind act of 2001, Public Law 107-110.

(3) In addition to all other requirements of this section, all of the following apply to the Michigan merit examination:

(a) The department of management and budget and the superintendent shall ensure that any contractor used for scoring the Michigan merit examination supplies an individual report for each pupil that will identify for

the pupil's parents and teachers whether the pupil met expectations or failed to meet expectations for each standard, to allow the pupil's parents and teachers to assess and remedy problems before the pupil moves to the next grade.

(b) The department of management and budget and the superintendent shall ensure that any contractor used for scoring, developing, or processing the Michigan merit examination meets quality management standards commonly used in the assessment industry, including at least meeting level 2 of the capability maturity model developed by the software engineering institute of Carnegie Mellon university for the first year the Michigan merit examination is offered to all grade 11 pupils and at least meeting level 3 of the capability maturity model for subsequent years.

(c) The department of management and budget and the superintendent shall ensure that any contract for scoring, administering, or developing the Michigan merit examination includes specific deadlines for all steps of the assessment process, including, but not limited to, deadlines for the correct testing materials to be supplied to schools and for the correct results to be returned to schools, and includes penalties for noncompliance with these deadlines.

(d) The superintendent shall ensure that the Michigan merit examination meets all of the following:

(iii) Is consistent with the code of fair testing practices in education prepared by the joint committee on testing practices of the American psychological association.

(iv) Is factually accurate. If the superintendent determines that a question is not factually accurate and should be excluded from scoring, the state board and the superintendent shall ensure that the question is excluded from scoring.

(4) A district shall include on each pupil's high school transcript all of the following:

(a) For each high school graduate who has completed the Michigan merit examination under this section, the pupil's scaled score on each subject area component of the Michigan merit examination.

(b) The number of school days the pupil was in attendance at school each school year during high school and the total number of school days in session for each of those school years.

(5) The superintendent shall work with the provider or providers of the Michigan merit examination to produce Michigan merit examination subject area scores for each pupil participating in the Michigan merit examination, including scaling and merging of test items for the different subject area components. The superintendent shall design and distribute to districts, intermediate districts, and nonpublic schools a simple and concise document that describes the scoring for each subject area and indicates the scaled score ranges for each subject area.

(6) The Michigan merit examination shall be administered each year after March 1 and before June 1 to pupils in grade 11. The superintendent shall ensure that the Michigan merit examination is scored and the scores are returned to pupils, their parents or legal guardians, and districts not later than the beginning of the pupil's first semester of grade 12. The returned scores shall indicate at least the pupil's scaled score for each subject area component and the range of scaled scores for each subject area. In reporting the scores to pupils, parents, and schools, the superintendent shall provide standards-specific, meaningful, and timely feedback on the pupil's performance on the Michigan merit examination.

(7) A district shall administer the complete Michigan merit examination to a pupil only once and shall not administer the complete Michigan merit examination to the same pupil more than once. If a pupil does not take the complete Michigan merit examination in grade 11, the district shall administer the complete Michigan merit examination to the pupil in grade 12. If a pupil chooses to retake the college entrance examination component of the Michigan merit examination, as described in subsection (2)(a), the pupil may do so through the provider of the college entrance examination component and the cost of the retake is the responsibility of the pupil unless all of the following are met:

(a) The pupil has taken the complete Michigan merit examination.

(b) The pupil did not qualify for a Michigan promise grant under section 6 of the Michigan promise grant act, 2006 PA 479, MCL 390.1626, based on the pupil's performance on the complete Michigan merit examination.

(c) The pupil meets the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i.

(d) The pupil has applied to the provider of the college entrance examination component for a scholarship or fee waiver to cover the cost of the retake and that application has been denied.

(e) After taking the complete Michigan merit examination, the pupil has not already received a free retake of the college entrance examination component paid for either by this state or through a scholarship or fee

waiver by the provider.

(8) The superintendent shall ensure that the length of the Michigan merit examination and the combined total time necessary to administer all of the components of the Michigan merit examination are the shortest possible that will still maintain the degree of reliability and validity of the Michigan merit examination results determined necessary by the superintendent. The superintendent shall ensure that the maximum total combined length of time that schools are required to set aside for pupils to answer all test questions on the Michigan merit examination does not exceed 8 hours if the superintendent determines that sufficient alignment to applicable Michigan merit curriculum content standards can be achieved within that time limit.

(9) A district shall provide accommodations to a pupil with disabilities for the Michigan merit examination, as provided under section 504 of title V of the rehabilitation act of 1973, 29 USC 794; subtitle A of title II of the Americans with disabilities act of 1990, 42 USC 12131 to 12134; the individuals with disabilities education act amendments of 1997, Public Law 105-17; and the implementing regulations for those statutes. The provider or providers of the Michigan merit examination and the superintendent shall mutually agree upon the accommodations to be provided under this subsection.

(10) To the greatest extent possible, the Michigan merit examination shall be based on grade level content expectations or course content expectations, as appropriate. Not later than July 1, 2008, the department shall identify specific grade level content expectations to be taught before and after the middle of grade 11, so that teachers will know what content will be covered within the Michigan merit examination.

(11) A child who is a student in a nonpublic school or home school may take the Michigan merit examination under this section. To take the Michigan merit examination, a child who is a student in a home school shall contact the district in which the child resides, and that district shall administer the Michigan merit examination, or the child may take the Michigan merit examination at a nonpublic school if allowed by the nonpublic school. Upon request from a nonpublic school, the superintendent shall direct the provider or providers to supply the Michigan merit examination to the nonpublic school and the nonpublic school may administer the Michigan merit examination. If a district administers the Michigan merit examination under this subsection to a child who is not enrolled in the district, the scores for that child are not considered for any purpose to be scores of a pupil of the district.

(12) In contracting under subsection (2), the department of management and budget shall consider a contractor that provides electronically-scored essays with the ability to score constructed response feedback in multiple languages and provide ongoing instruction and feedback.

(13) The purpose of the Michigan merit examination is to assess pupil performance in mathematics, science, social studies, and English language arts for the purpose of improving academic achievement and establishing a statewide standard of competency. The assessment under this section provides a common measure of data that will contribute to the improvement of Michigan schools' curriculum and instruction by encouraging alignment with Michigan's curriculum framework standards and promotes pupil participation in higher level mathematics, science, social studies, and English language arts courses. These standards are based upon the expectations of what pupils should learn through high school and are aligned with national standards.

(14) As used in this section:

(a) "English language arts" means reading and writing.

(b) "Social studies" means United States history, world history, world geography, economics, and American government.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing within the same intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program:

(i) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing within the same intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice shall include the dates of the application period. The application period shall be at least a 15-calendar-day period.

(ii) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment that the applicant has been accepted for enrollment in the grade, school, or program and of the procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing within the same intermediate district, beyond those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing within the same intermediate district for the second semester or trimester using the following procedures:

(a) Not later than 2 weeks before the end of the first semester or trimester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester or trimester may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(b) During the last 2 weeks of the first semester or trimester, the district shall accept applications from nonresidents residing within the same intermediate district for enrollment for the second semester or trimester in the available grades, schools, and programs.

(c) By the beginning of the second semester or trimester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll in the district for the second semester or trimester and notify the parent or legal guardian of each nonresident applicant residing within the same intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for

enrollment. The date for enrollment shall be no later than the end of the first week of school.

(4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.

(5) A district offering to enroll nonresident applicants residing within the same intermediate district may limit the number of nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant.

(6) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(8) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant if any of the following are met:

(a) The applicant is, or has been within the preceding 2 years, suspended from another school.

(b) The applicant, at any time before enrolling under this section, has been expelled from another school.

(c) The applicant, at any time before enrolling under this section, has been convicted of a felony.

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing within the same intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(14) If the number of qualified nonresident applicants eligible for acceptance in a school, grade, or program does not exceed the positions available for nonresident pupils in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing within the same intermediate district eligible for acceptance exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant, the district of residence shall provide that information on a timely basis.

(16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian

information on available transportation to and from the school in which the pupil enrolls.

(18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(19) A district that, pursuant to this section, enrolls a nonresident pupil who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, shall be considered to be the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. Consistent with state and federal law, that district is responsible for developing and implementing an individualized education plan annually for a nonresident pupil described in this subsection.

(20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

388.1705c Enrollment by nonresident applicants residing in district located in a contiguous intermediate district.

Sec. 105c. (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing in a district located in a contiguous intermediate district in membership without the approval of the pupil's district of residence, a district shall comply with this section.

(2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing in a district located in a contiguous intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents under this section, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents under this section:

(a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing in a district located in a contiguous intermediate district.

(b) If the district has a limited number of positions available for nonresidents residing in a district located in a contiguous intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents under this section in that grade, school, or program:

(i) The district shall do all of the following not later than the second Friday in August:

(C) Within 15 calendar days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll under this section in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment under this section shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(i) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester or trimester enrollment under subsection (3), as provided under that subsection, or until the next school year.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing in a district located in a contiguous intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program under this section:

The application period shall be at least a 15-calendar-day period.

(ii) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment under this section that the applicant has been accepted for enrollment in the grade, school, or program and of the date by which the applicant must enroll in the district and the procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing in a district located in a contiguous intermediate district, beyond those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing in a district located in a contiguous intermediate district for the second semester or trimester using the following procedures:

the intermediate district may use those deadlines.

(5) A district offering to enroll nonresident applicants residing in a district located in a contiguous intermediate district may limit the number of those nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant under this section.

(6) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant under this section if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(b) The applicant, at any time before enrolling under this section, has been expelled from another school.

(c) The applicant, at any time before enrolling under this section, has been convicted of a felony.

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing in a district located in a contiguous intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(14) If the number of qualified nonresident applicants eligible for acceptance under this section in a school, grade, or program does not exceed the positions available for nonresident pupils under this section in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing in a district located in a contiguous intermediate district eligible for acceptance under this section exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant under this section, the district of residence shall provide that information on a timely basis.

(16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian

information on available transportation to and from the school in which the pupil enrolls.

(18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(19) In order for a district or intermediate district to enroll pursuant to this section a nonresident pupil who resides in a district located in a contiguous intermediate district and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the enrolling district shall have a written agreement with the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. The written agreement shall include, but is not limited to, an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. The written agreement shall address how the agreement shall be amended in the event of significant changes in the costs or level of special education programs or services required by the pupil.

(20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

(22) This section is repealed if the final decision of a court of competent jurisdiction holds that any portion of this section is unconstitutional, ineffective, invalid, or in violation of federal law.

(23) As used in this section, "district located in a contiguous intermediate district" means a district located in an intermediate district that is contiguous to the intermediate district in which a pupil's district of residence is located.

(b) A district or consortium that received funding in 2011-2012 under this section may operate independently of a consortium or join or form a consortium for 2012-2013. Sec. 166b. (1) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who is being home-schooled from also enrolling the minor in a district, public school academy, or intermediate district in any curricular offering that is provided by the district, public school academy, or intermediate district at a public school site and is available to pupils in the minor's grade level or age group, subject to compliance with the same requirements that apply to a full-time pupil's participation in the offering. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only for curricular offerings that are offered to full-time pupils in the minor's grade level or age group during regularly scheduled school hours.

(2) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who resides within the district and is being home-schooled from also enrolling the minor in the district in a curricular offering being provided by the district at the nonpublic school site. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only if all of the following apply:

(a) Either of the following:

(i) The nonpublic school site is located, or the nonpublic students are educated, within the geographic boundaries of the district.

(ii) If the nonpublic school has submitted a written request to the district in which the nonpublic school is located for the district to provide certain instruction under this subsection for a school year and the district does not agree to provide some or all of that instruction by May 1 immediately preceding that school year or,

if the request is submitted after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request, the instruction is instead provided by an eligible other district. This subparagraph does not require a nonpublic school to submit more than 1 request to the district in which the nonpublic school is located for that district to provide instruction under this subsection, and does not require a nonpublic school to submit an additional request to the district in which the nonpublic school is located for that district to provide additional instruction under this subsection beyond the instruction requested in the original request, before having the instruction provided by an eligible other district. A public school academy that is located in the district in which the nonpublic school is located or in an other eligible district also may provide instruction under this subparagraph under the same conditions as an eligible other district. As used in this subparagraph, "eligible other district" means a district that is located in the same intermediate district as the district in which the nonpublic school is located or is located in an intermediate district that is contiguous to that intermediate district.

(b) The nonpublic school is registered with the department as a nonpublic school and meets all state reporting requirements for nonpublic schools.

(c) The instruction is scheduled to occur during the regular school day.

(d) The instruction is provided directly by a certified teacher at the district or public school academy or at an intermediate district.

(e) The curricular offering is also available to full-time pupils in the minor's grade level or age group in the district or public school academy during the regular school day at a public school site.

(f) The curricular offering is restricted to nonessential elective courses for pupils in grades 1 to 12.

(3) A minor enrolled as described in this section is a part-time pupil for purposes of state school aid under this act.

(4) A district that receives a written request to provide instruction under subsection (2) shall reply to the request in writing by May 1 immediately preceding the applicable school year or, if the request is made after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request. The written reply shall specify whether the district agrees to provide or does not agree to provide the instruction for each portion of instruction included in the request.

Any increase in the maximum grant shall be proportional for all eligible students receiving awards for fiscal year 2012-2013.

(7) The department of treasury shall not award more than \$3,000,000.00 in tuition grants to eligible students enrolled in the same independent nonprofit college or university in this state. 388.1865 Public university tuition restraint incentives; payment conditions; definitions; determination of allocation; uniform reporting requirements; additional information.

Sec. 265. (1) Payments from the amount appropriated in section 236(3) for public university tuition restraint incentives shall only be made to a public university that certifies to the state budget director by August 31, 2012 that its board did not adopt an increase in tuition and fee rates for resident undergraduate students after September 1, 2011 for the 2011-2012 academic year and that its board will not adopt an increase in tuition and fee rates for resident undergraduate students for the 2012-2013 academic year that is greater than 4.0%. As used in this subsection and subsection (2):

(a) Subject to subdivision (c), "fee" means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university. A university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2012-2013 academic year to exceed the limit established in this subsection.

(b) "Tuition and fee rate" means the average of full-time rates for all undergraduate classes, based on an average of the rates authorized by the university board and actually charged to students, deducting any uniformly-rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated

resident undergraduate enrollment during the academic year.

(c) For purposes of subdivision (a), for a public university that compels resident undergraduate students to be covered by health insurance as a condition to enroll at the university, "fee" includes the annual amount a student is charged for coverage by the university-affiliated group health insurance policy if he or she does not provide proof that he or she is otherwise covered by health insurance. This subdivision does not apply to limited subsets of resident undergraduate students to be covered by health insurance for specific reasons other than general enrollment at the university.

(2) For purposes of section 236(3), each public university's allocation for tuition restraint incentive shall be determined as follows:

(a) Calculate an adjustment for each university by subtracting each university's reported percent change in tuition and fee rates for academic year 2012-2013 from 4.1%. If the result of the calculation in this subdivision is less than 0.1%, the university is not qualified to receive an allocation under this section. All calculations under this subdivision shall be rounded to the first decimal place.

(b) For each qualified university, divide the university's adjustment as calculated under subdivision (a) by the sum of all adjustments for qualifying universities under subdivision (a) and then multiply the resulting calculation for each university by the total amount available for tuition restraint incentive funding, rounded to the nearest hundred dollars.

(3) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving an appropriation under section 236(3) has satisfied the tuition restraint requirements of this section. The state budget director shall have the sole authority to determine if a public university has met the requirements of this section. Information reported by a public university to the state budget director under this subsection shall also be reported to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies.

(4) In conjunction with the uniform reporting requirements established under subsection (3), each public university shall also report the following information to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director by August 31, 2012:

(a) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 total general fund tuition and fee revenue.

(b) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 total general fund revenue.

(c) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 general fund expenditures for student financial aid.

(d) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 total general fund expenditures.

(e) Actual or estimated fiscal year 2011-2012 and budgeted fiscal year 2012-2013 total fiscal year equated student enrollment.

ARTICLE IV GENERAL PROVISIONS

388.1896 Excess funds; proration.

Sec. 296. (1) If the maximum amount appropriated under this act from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a.

(2) If the total maximum amount appropriated under all articles of this act from the state school aid fund and the school aid stabilization fund exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, 56, and 152a shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and

subsection (3). If proration is necessary, state payments under each of the other sections of article I from all state funding sources, and state appropriations to community colleges and public universities under articles II and III from the state school aid fund, shall be prorated in the manner prescribed in subsection (3) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(3) If proration is necessary under subsection (2), the department shall calculate the proration in district and intermediate district payments under article I that is required under subsection (2), and the department of treasury shall calculate the proration in community college and public university payments under articles II and III that is required under subsection (2), as follows:

(a) The department and the department of treasury shall calculate the percentage of total state school aid fund money that is appropriated and allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(iv) Community colleges and public universities that receive funding from the state school aid fund.

(b) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to districts. This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 152a, by that amount.

(c) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, 56, and 152a, on an equal percentage basis.

(d) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iii) for entities receiving funding from the state school aid fund under article I other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments under sections 11j, 26a, and 26b, on an equal percentage basis.

(e) The department of treasury shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iv) for community colleges and public universities that receive funding from the state school aid fund by reducing that portion of the payments under articles II and III to these community colleges and public universities that is from the state school aid fund on an equal percentage basis.

Sec. 3. (1) As used in this act:

(a) "Career and technical preparation program" means a program that teaches a trade, occupation, or vocation and that is operated by an eligible postsecondary educational institution located in this state.

(b) "Community college" means a community college established under the community college act of 1966, 1966 PA 331, MCL 389.1 to 389.195, or under part 25 of the revised school code, 1976 PA 451, MCL 380.1601 to 380.1607, or a federal tribally controlled community college located in this state that is recognized under the tribally controlled colleges and universities assistance act of 1978, 25 USC 1801 to 1852, and is determined by the department to meet the requirements for accreditation by a recognized regional accrediting body.

(c) "Department" means the department of education.

(d) "Eligible charges" means tuition and mandatory course fees, material fees, and registration fees required by a career and technical preparation program for enrollment in an eligible course. Eligible charges also include any late fees charged by a career and technical preparation program due to the school district's or department of treasury's failure to make a required payment according to the timetable prescribed under this act. Eligible charges do not include transportation or parking costs or activity fees.

(e) "Eligible course" means a course offered by a career and technical preparation program that is offered for postsecondary credit or is part of a noncredit occupational training program leading to an industry-recognized credential; that is not offered through the school district, intermediate school district, area vocational-technical education program, or state approved nonpublic school in which the eligible student is enrolled, or that is offered through the school district, intermediate school district, area vocational-technical education program, or state approved nonpublic school but is determined by its governing board to not be available to the eligible student because of a scheduling conflict beyond the eligible student's control; that is a career and technical preparation course not ordinarily taken as an activity course; that is a course that the career and technical preparation program normally applies toward satisfaction of certificate, degree, or program completion requirements; and that is not a hobby craft or recreational course. For each individual eligible student, unless there is a written agreement between the eligible student's school district and the career and technical preparation program to waive these limits, a course described in this subdivision is not an

eligible course if the eligible student's enrollment in, and the payment of eligible charges under this act for, the course would exceed the following limits:

(i) Not more than 10 courses overall. This limit and the limits under subparagraphs (ii) to (iv) do not apply to a course if the eligible student does not receive tuition and fee support under this act for that course.

(ii) If the eligible student first enrolls in a course under this act when the eligible student is in grade 9, not more than 2 courses during each academic year in the eligible student's first, second, or third academic year of enrollment under this act in a career and technical preparation program and not more than 4 courses during the academic year in the eligible student's fourth academic year of enrollment under this act in a career and technical preparation program.

(iv) Subject to the overall course limit under subparagraph (i), if the eligible student first enrolls in a course under this act when the eligible student is in grade 11 or 12, not more than 6 courses during either of those academic years of enrollment in a career and technical preparation program.

(f) "Eligible postsecondary educational institution" means a state university, community college, or independent nonprofit degree-granting college or university that is located in this state and that chooses to comply with this act.

(g) "Eligible student" means a student enrolled in at least 1 high school class in a school district or state approved nonpublic school in this state, except a foreign exchange pupil enrolled under a cultural exchange program or a student who does not have at least 1 parent or legal guardian who is a resident of this state. However, subject to subsection (2), the student shall not have been enrolled in high school for more than 4 school years including the school year in which the student seeks to enroll in an eligible course under this act. To be an eligible student, a student who has not taken the Michigan merit examination must have achieved a qualifying score in all subject areas on a readiness assessment and a student who has taken the Michigan merit examination must have achieved a qualifying score in all subject areas on the Michigan merit examination, and, subject to subsection (2), the student shall not have been enrolled in high school for more than 4 school years including the school year in which the student seeks to enroll in an eligible course under this act. However, if the student has not achieved a qualifying score in all subject areas on a readiness assessment or the Michigan merit examination, as applicable for the student, the student is an eligible student if the student achieves a qualifying score in mathematics and a qualifying score on a nationally or industry recognized job skills assessment test as determined by the superintendent of public instruction. For the purposes of determining the number of years a pupil has been enrolled in high school, a pupil who is enrolled in high school for less than 90 days of a school year due to illness or other circumstances beyond the control of the pupil or the pupil's parent or guardian is not considered to be enrolled in high school for that school year.

(h) "Intermediate school district" means that term as defined in section 4 of the revised school code, 1976 PA 451, MCL 380.4.

(i) "Michigan merit examination" means that examination developed under section 1279g of the revised school code, 1976 PA 451, MCL 380.1279g.

(j) "Qualifying score" means a score on a readiness assessment or on a nationally or industry recognized job skills assessment test that has been determined by the superintendent of public instruction to indicate readiness to enroll in a course under this act.

(l) "School district" means that term as defined in section 6 of the revised school code, 1976 PA 451, MCL 380.6, or a public school academy as defined in section 5 of the revised school code, 1976 PA 451, MCL 380.5.

(2) The department, in consultation with the superintendent of public instruction, shall promulgate rules

establishing criteria and procedures under which a student who has been enrolled in high school for more than 4 years but not more than 5 years may be considered to be an eligible student. The rules shall address special circumstances under which a student may qualify to be considered an eligible student under this subsection and may limit the number of courses in which a student who qualifies under this subsection may enroll. For the purposes of determining the number of years a pupil has been enrolled in high school, a pupil who is enrolled in high school for less than 90 days of a school year due to illness or other circumstances beyond the control of the pupil or the pupil's parent or guardian is not considered to be enrolled for that school year.

Sec. 3a. (1) Not later than July 1, 2005, the superintendent of public instruction shall do both of the following:

(a) Approve 1 or more readiness assessments that may be used for the purposes of determining eligible students beginning with participation in the 2006-2007 school year. Readiness assessments shall be aligned with state learning standards and shall provide high school students with an early indication of proficiency in the subject areas of English, mathematics, reading, social studies, and science and contain a comprehensive career planning program.

(b) Determine qualifying scores for each subject area component of a readiness assessment and for a nationally or industry recognized job skills assessment test that indicate readiness to enroll in a course under this act.

(2) Not later than July 1, 2006, the superintendent of public instruction shall determine qualifying scores for each subject area component of the Michigan merit examination that indicate readiness to enroll in a course under this act.

(3) Unless the school district or state approved nonpublic school in which the student is enrolled elects to pay these costs, a student who takes a readiness assessment or a job skills assessment test for the purposes of this act is responsible for paying all costs for taking and obtaining qualifying scores on a readiness assessment or a job skills assessment test for the purposes of this act. This state is not responsible for any of these costs.

388.1904 Career and technical preparation program; enrollment requirements; payment; refund.

Sec. 4. (1) Upon request by the eligible student, the school district or state approved nonpublic school in which an eligible student is enrolled shall provide to the eligible student a letter signed by the student's principal indicating the student's eligibility under this act.

(2) An eligible student may apply to a career and technical preparation program to enroll in 1 or more eligible courses offered by that career and technical preparation program and, if accepted, may enroll in 1 or more of those courses.

(3) For an eligible student enrolled in a school district, within a reasonable time after registration, the career and technical preparation program shall send written notice to the eligible student and his or her school district. For an eligible student enrolled in a state approved nonpublic school, within a reasonable time after registration, the career and technical preparation program shall send written notice to the eligible student and his or her state approved nonpublic school and to the department. The notice shall indicate the course or courses and hours of enrollment of that eligible student. The career and technical preparation program shall notify the eligible student about tuition, fees, books, materials, and other related charges, as determined by the career and technical preparation program, in the customary manner used by the career and technical preparation program, and shall notify the eligible student of the estimated amount of the eligible charges that will be billed to the school district or department, as applicable, under subsection (4).

(4) For an eligible student enrolled in a school district, unless otherwise agreed between the career and technical preparation program and the school district, after the expiration of the career and technical preparation program's drop/add period for the course, the career and technical preparation program shall send a bill to the eligible student's school district detailing the eligible charges for each eligible course in which the eligible student is enrolled under this act. For an eligible student who is enrolled in a state approved nonpublic school, after the expiration of the career and technical preparation program's drop/add period for the course, both of the following apply:

(a) The career and technical preparation program shall send a bill to the department detailing the eligible charges for each eligible course in which the eligible student is enrolled under this act.

(b) The department shall determine the amount of the eligible charges to be paid by the department of treasury to the career and technical preparation program on behalf of the eligible student under this act and shall deliver this information to the department of treasury by appropriate electronic means.

(5) For an eligible student enrolled in a school district, upon receiving the bill under subsection (4), the school district shall cause to be paid to the career and technical preparation program on behalf of the eligible student an amount equal to the lesser of the amount of the eligible charges or the prorated percentage of the statewide pupil-weighted average foundation allowance, as calculated under section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620, for all school districts for the state fiscal year that begins on October 1 of the academic year of enrollment in the career and technical preparation program, with the proration based on the proportion of the school year that the eligible student attends the career and technical preparation program. However, in the calculation of the statewide pupil-weighted average foundation allowance for the purposes of this subsection, if a school district's foundation allowance is above the basic foundation allowance under section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620, then the school district's foundation allowance shall be considered to be the basic foundation allowance. Not later than September 1 of each year, the department shall notify the department of treasury of the amount of the statewide pupil-weighted average foundation allowance as calculated for the purposes of this subsection. A school district may pay more money to a career and technical preparation program on behalf of an eligible student than is required under this act, and may use local school operating revenue for that purpose. The eligible student is responsible for payment of the remainder of the costs associated with his or her enrollment in the career and technical preparation program that exceed the amount the school district is required to pay under this act and that are not paid by the school district. As used in this subsection, "local school operating revenue" means that term as defined in section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620.

(6) For an eligible student who is enrolled in a state approved nonpublic school, upon receiving from the department under subsection (4) the amount of the eligible charges to be paid on behalf of the eligible student, the department of treasury shall cause to be paid to the career and technical preparation program on behalf of the eligible student an amount equal to the lesser of the amount of the eligible charges or the prorated percentage of the statewide pupil-weighted average foundation allowance, as calculated under section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620, for all school districts for the state fiscal year that begins on October 1 of the academic year of enrollment in the career and technical preparation program, with the proration based on the proportion of the school year that the eligible student attends the career and technical preparation program. However, in the calculation of the statewide pupil-weighted average foundation allowance for the purposes of this subsection, if a school district's foundation allowance is above the basic foundation allowance under section 20 of the state school aid act of 1979, 1979 PA 94, MCL 388.1620, then the school district's foundation allowance shall be considered to be the basic foundation allowance. Not later than September 1 of each year, the department shall notify the department of treasury of the amount of the statewide pupil-weighted average foundation allowance as calculated for the purposes of this subsection. The eligible student is responsible for payment of the remainder of the costs associated with his or her enrollment in the career and technical preparation program that exceed the amount the department of treasury is required to pay under this act and that are not paid by the department of treasury.

(7) A career and technical preparation program shall not charge a late fee to an eligible student, a school district, the department, or the department of treasury for a payment that is made in compliance with the timetable prescribed under this act even if the payment would otherwise be considered late by the career and technical preparation program.

(8) A school district, state approved nonpublic school, or the department may require an eligible student to provide, on a form supplied by the school district, state approved nonpublic school, or the department, reasonable verification that the eligible student is regularly attending a career and technical preparation course under this act.

(9) For an eligible student who is enrolled in a school district and who enrolls in an eligible course under

this act, if the eligible student does not complete the eligible course, and if the school district has paid money for the course or, if the eligible student enrolls in an eligible course for postsecondary credit only and the eligible student does not successfully complete the eligible course, as determined by the career and technical preparation program, on behalf of the student, all of the following apply:

(a) The career and technical preparation program shall forward to the school district any funds that are refundable due to noncompletion of the course. If applicable, the school district shall then forward to the eligible student any refunded money in excess of the amount paid by the school district for the course on behalf of the student.

(b) The eligible student shall repay to the school district any funds that were expended by the school district for the course that are not refunded to the school district by the career and technical preparation program. If the eligible student does not repay this money, the school district may impose sanctions against the eligible student as determined by school district policy. This subdivision does not apply to an eligible student who does not complete the course due to a family or medical emergency, as determined by the career and technical preparation program.

(10) For an eligible student who is enrolled in a state approved nonpublic school and who enrolls in an eligible course under this act, if the eligible student does not complete the eligible course or, if the eligible student enrolls in an eligible course for postsecondary credit only and the eligible student does not successfully complete the eligible course, as determined by the career and technical preparation program, and if the department of treasury has paid money for the course on behalf of the eligible student, all of the following apply:

(a) The career and technical preparation program shall forward to the department of treasury any funds that are refundable due to noncompletion of the course. If applicable, the career and technical preparation program shall then refund to the eligible student any funds that are refundable due to noncompletion of the course and are in excess of the amount paid by the department of treasury for the course on behalf of the eligible student.

(b) The eligible student shall repay to the department of treasury any funds that were expended by the department of treasury for the course that are not refunded to the department of treasury by the career and technical preparation program. This subdivision does not apply to an eligible student who does not complete the course due to a family or medical emergency, as determined by the career and technical preparation program.

(1) Except as otherwise provided in this act, a school district may borrow from the state an amount not greater than the difference between the proceeds of the school district's computed millage and the amount necessary to pay principal and interest on its qualified bonds, including any necessary allowances for estimated tax delinquencies.

(2) For school districts having qualified loans outstanding as of July 20, 2005, the state treasurer shall review information relating to each school district regarding the taxable value of the school district and the actual debt service of outstanding qualified bonds as of July 20, 2005 and shall issue an order establishing the payment date for all those outstanding qualified loans and any additional qualified loans expected to be incurred by those school districts related to qualified bonds issued before July 20, 2005. The payment date shall be not later than 72 months after the date on which the qualified bonds most recently issued by the school district are due and payable.

(3) For qualified loans related to qualified bonds issued after July 20, 2005, the qualified loans shall be due not later than 72 months after the date on which the qualified bonds for which the school borrowed from this state are due and payable. (7) Upon the request of a school district made before June 1 of any year, the state treasurer annually may waive all or a portion of the millage required to be levied by a school district to pay principal and interest on its qualified bonds or qualified loans under this section if the state treasurer finds all of the following:

(a) The school board of the school district has applied to the state treasurer for permission to levy less than the millage required to be levied to pay the principal and interest on its qualified bonds or qualified loans under subsection (1).

(b) The application specifies the number of mills the school district requests permission to levy.

(c) The waiver will be financially beneficial to this state, the school district, or both.

(d) The waiver will not reduce the millage levied by the school district to pay principal and interest on qualified bonds or qualified loans under this act to less than 7 mills.

(e) The board of the school district, by resolution, has agreed to comply with all conditions that the state treasurer considers necessary.
